CATALOG OF NATIONAL HISTORIC LANDMARKS

1987

This catalog includes all National Historic Landmarks designated through June 30, 1987.

Entries in the catalogue are listed by state. Under each state heading, listings are in alphabetical order under the individual Landmark names. Each entry is in the following format:

HISTORIC NAME OF THE LANDMARK
Local address
City, County
Historic date(s); architect (if known)

Brief description of the Landmark and its significance, followed by the date of its designation as a National Historic Landmark.

In general, the historic date in entries on individual structures is the date of construction. For historic sites such as battlefields, the dates of significant historic events are given.

INTRODUCTION

Purpose of the National Historic Landmarks Program

The National Park Service conducts the National Historic Landmarks Program to identify, designate, recognize, and encourage the preservation of buildings, structures, sites, and objects of national significance. National Historic Landmarks commemorate and illustrate the history and prehistory of the United States. Landmark designation aids planning by government agencies, private organizations, and individuals because it is the primary Federal means of recognizing the national significance of historic properties. The program is also one of the major tools used to scrutinize proposals for additions to the National Park System and to select nominations to the World Heritage List.

The Park Service conducts the Landmarks program for the Secretary of the Interior. It is a cooperative endeavor of government agencies, specialists, and independent organizations sharing knowledge with the Park Service and working jointly to identify and preserve National Historic Landmarks. The program is an important aid to the preservation of many outstanding historic places that are not in the National Park System. By mid-1987, 1811 properties had been designated National Historic Landmarks.

Designation of National Historic Landmarks

Landmarks are nominated based on studies prepared or overseen by Park Service professionals. Nominations are then evaluated by the National Park System Advisory Board, a committee of scholars and interested citizens. The Board recommends properties that should be designated to the Secretary of the Interior; decisions on designation, however, rest with the Secretary. Potential Landmarks are nominated through theme studies and, in some cases, by special studies outside of theme studies. Theme studies are surveys of properties related to an aspect of American culture. In them, a number of properties dealing with the same subject are evaluated at the same time, using the National Historic Landmarks criteria and the theme outline in History and Prehistory in the National Park System and the National Historic Landmarks Program. Special studies of individual properties for landmark designation may also be conducted. These may be mandated by the Congress or the Executive Branch and often include endangered properties. Nomination studies are prepared by historians, archeologists, and anthropologists familiar with the broad range of the Nation's historic and prehistoric sites and themes.

Criteria of National Significance

The following criteria are prescribed for evaluating properties nominated for designation as National Historic Landmarks. The National Park System Advisory Board applies these in reviewing nominations and making recommendations to the Secretary as to whether a nominated property possesses national significance. The criteria establish the qualitative framework in which comparative analysis of historic properties takes place.

National significance is ascribed to districts, sites, buildings, structures, and objects that possess exceptional value or quality in illustrating or interpreting the heritage of the United States in history, architecture, archeology, engineering, and culture, and that possess a high degree of integrity of location, design, setting, materials, workmanship, feeling, and association, and:

- (1) that are associated with events that have made a significant contribution to, and are identified with, or that outstandingly represent, the broad national patterns of United States history and from which an understanding and appreciation of those patterns may be gained; or
- (2) that are associated importantly with the lives of persons nationally significant in the history of the United States; or
- (3) that represent some great idea or ideal of the American people; or
- (4) that embody the distinguishing characteristics of an architectural type specimen exceptionally valuable for the study of a period, style, or method of construction, or that represent a significant, distinctive, and exceptional entity whose components may lack individual distinction; or
- (5) that are composed of integral parts of the environment not sufficiently significant by reason of historical association or artistic merit to warrant individual recognition but collectively compose an entity of exceptional historical or artistic significance, or outstandingly commemorate or illustrate a way of life or culture; or
- (6) that have yielded or may be likely to yield information of major scientific importance by revealing new cultures, or by shedding light upon periods of occupation over large areas of the United States. Such sites are those which have yielded, or which may reasonably be expected to yield, data affecting theories, concepts, and ideas to a major degree.

Ineligible Properties and Exceptions to Exclusions

Ordinarily, cemeteries, birthplaces, graves of historical figures, properties owned by religious institutions or used for religious purposes, structures that have been moved from their original locations, reconstructed historic buildings, and properties that have achieved significance within the past 50 years are not eligible for designation. If such properties fall within the following categories they may, nevertheless, be found to qualify:

- (1) a religious property deriving its primary national significance from architectural or artistic distinction or importance in a historical field other than religion; or
- (2) a building or structure removed from its original location but which is nationally significant primarily for its architectural merit, or for association with persons or events of transcendent importance in the nation's history and the association consequential; or

- (3) a site of a building or structure no longer standing but the person or event associated with it is of transcendent importance in the nation's history, and the association consequential; or
- (4) a birthplace, grave, or burial site if it is of a historical figure of transcendent national significance and no other appropriate site, building, or structure directly associated with the productive life of that person exists, or
- (5) a cemetery that derives its primary national significance from graves of persons of transcendent importance, or from an exceptionally distinctive design or an exceptionally significant event; or
- (6) a reconstructed building or ensemble of buildings of extraordinary national significance when accurately executed in a suitable environment and presented in a dignified manner as part of a restoration master plan, and when no other buildings or structures with the same association have survived; or
- (7) a property primarily commemorative in intent if design, age, tradition, or symbolic value has invested it with its own national historical significance; or
- (8) a property achieving national significance within the past 50 years if it is of extraordinary national importance.

Recognition and Effects of Designation

After the Secretary of the Interior has designated a Landmark, the Landmark owner receives a certificate of designation signed by the Secretary and the Director of the National Park Service. The Park Service invites the owner to accept a free plaque bearing the name of the property and attesting to its national significance. The plaque is presented to owners who pledge to preserve the Landmark and to display the plaque publicly and appropriately. The certificate and plaque remain the property of the Park Service, but are entrusted to the care of the owner. In accepting the plaque, the owner gives up none of the rights and privileges of ownership or use of the property; nor does the Department of the Interior acquire a legal interest in the property. The owner of a Landmark is not required to grant public access, although some do. Thus, persons wishing to visit a Landmark should inquire in advance whether the property is open to the public.

Upon designation, Landmark properties not already listed in the National Register of Historic Places are entered in the Register. The Register is the Federal Government's list of places worthy of preservation, and this list includes places of State, local, and national significance. Listing of private property in the Register does not prohibit, under Federal law or regulation, any actions which may otherwise legally be taken by the owner.

Withdrawal of Designation

Landmark designation may be withdrawn for four reasons, if: (1) the Landmark has lost the qualities for which it was designated; (2) new information demonstrates that the property does not meet the criteria; (3) professional error has been made; or (4) procedural error occurred in the designation process. (For legal reasons, a designation before December 13, 1980, can be withdrawn only if the property in question has lost the qualities for which it was originally designated.) If the History Division decides a study for revocation or boundary change is warranted, it will conduct and process a study in the same manner as for a nomination study. When designation is withdrawn, by the Secretary, the Park Service reclaims the National Historic Landmark certificate and plaque.

Other Regulations

The legal description of the National Historic Landmarks Program is found in the <u>U.S. Code of Federal Regulations</u> (36 CFR 65). The regulations cite the statutory authorities for the program and related Federal laws. State and local historic preservation laws and regulations may also apply to Landmarks and other historic properties; information on these matters may be obtained from the State Historic Preservation Officer in the State or from the local jurisdiction in which the property is located.

The National Historic Landmarks Program focuses attention on places of exceptional value to the nation as a whole, by recognizing and promoting the preservation efforts of private organizations, individuals, and government agencies. Designation often leads to increased public attention to and interest in a property. This catalog is intended to aid the reader in identifying and understanding the National Historic Landmarks of the United States.

ALABAMA (24)

ALABAMA STATE CAPITOL

APALACHICOLA FORT SITE Near Holy Trinity Russell County 1690

BARTON HALL Near Cherokee, Colbert County 1840s; Armstead Barton

CITY HALL 111 S. Royal Street Mobile, Mobile County 1858

CLAYTON (HENRY D.) HOUSE 1 mile south of Clayton Barbour County c. 1850

CONFEDERATE CAPITOL (FIRST)

CURRY (J. L. M.) HOME Near Talladega Talladega County Early 19th century

DEXTER AVENUE BAPTIST CHURCH 454 Dexter Avenue Montgomery, Montgomery County 1878

FIRST CONFEDERATE CAPITOL
(Alabama State Capitol)
East end of Dexter Avenue
Montgomery, Montgomery County
1851; George Nichols

FORT JACKSON

See FIRST CONFEDERATE CAPITOL

Northernmost Spanish outpost on the Chattahoochee River, built to prevent British inroads among the lower Creek Indians. July 19, 1964.

This 2-story frame clapboard-sided house has a small portico supported by four fluted Doric columns. It is an 1840s transitional structure with both Federal and Greek Revival characteristics. November 7, 1973.

Built originally as a marketplace, this Greek Revival brick building served as an armory during the Civil War. This structure is a twin-gabled building in the center connected to smaller outer buildings by crenellated wing walls. November 7, 1973.

Longtime residence of the member of the U.S. House of Representatives (1897-1914) who authored the Clayton Anti-Trust Act (1914). Clayton also advocated judicial reform. A 1-1/2 story gable-roofed, L-shaped house. December 8, 1976.

See FIRST CONFEDERATE CAPITOL

Curry was instrumental in developing public education and teacher-training programs in the South in the late 19th century. He also served in the U.S. and Confederate Houses of Representatives and as Minister to Spain (1885-88). December 21, 1965.

The original headquarters of the Montgomery Improvement Association, headed by Dr. Martin Luther King, Jr., which carried out a successful boycott of segregated city buses in 1955. The church is a small, eclectic-style building. May 30, 1974.

Site of Alabama's secession convention, the adoption of the Confederate Constitution, the inauguration of Jefferson Davis as provisional President of the Confederacy, and the first session of the Confederate Congress (1861). December 19, 1960.

See FORT TOULOUSE SITE

Alabama

FORT MORGAN Mobile Point, Baldwin County 1819-34

FORT TOULOUSE SITE (Fort Jackson) 4 miles southwest of Wetumpka Elmore County 1717, 1814

GAINESWOOD 805 S. Cedar Street Demopolis, Marengo County 1842-60; Nathan Bryan Whitfield

MOBILE CITY HALL

MONTGOMERY UNION STATION AND TRAINSHED Water Street Montgomery, Montgomery County 1897-98

MOUNDVILLE SITE Near Moundville Hale County 1000-1500

NEUTRAL BUOYANCY SPACE SIMULATOR George C. Marshall Space Flight Center Huntsville, Madison County 1955-present; U. S. Army, NASA

PROPULSION AND STRUCTURAL TEST FACILITY (Solid Motor Structural Test Facility) George C. Marshall Space Flight Center Huntsville, Madison County 1957-present; U.S. Army, NASA Significant in Admiral Farragut's 1864 naval battle that opened Mobile Bay to the Union Navy and sealed off the port of Mobile to Confederate shipping. December 19, 1960.

French Fort Toulouse, at the confluence of the Coosa and Tallapoosa Rivers, was useful in extending French influence in the Southeast. Andrew Jackson built Fort Jackson on the abandoned site in 1814. It was the scene of negotiations that concluded the Creek War. The site of the fort, two monuments, and traces of what was probably a powder magazine may be viewed today. October 9, 1960.

Designed and built over an 18-year period by its owner, this is a sprawling Greek Revival mansion with Italianate influences, an atypical plan, and elaborate interior detail. November 7, 1973.

See CITY HALL

An excellent example of late 19th-century commercial architecture, the Montgomery Union Station is most significant for its trainshed, which illustrates the adaptation of bridge-building techniques to shelter structures, an important step in the history of American engineering. December 8, 1976.

Ceremonial mound site with 34 extant mounds, a museum displaying site artifacts, and burial areas. Represents a major period of Mississippian culture in the Southern United States. July 19, 1964.

Used to familiarize Apollo astronauts, as well as engineers and designers, with the dynamics of zero gravity that would be encountered in operations under weightless conditions in space. October 3, 1985.

Through its continual use and modification to meet the demands of new programs this facility illustrates the primary mission assigned to the Army Ballistic Missile Agency and the Marshall Space Flight Center — the development of large launch vehicles and propulsion systems needed to support the American Space Program. October 3, 1985.

REDSTONE TEST STAND George C. Marshall Space Flight Center Huntsville, Madison County 1953-61; U. S. Army

ST. ANDREW'S CHURCH Prairieville, Hale County 1853

SATURN V DYNAMIC TEST STAND
(Dynamic Structural Test
Facility)
George C. Marshall Space Flight
Center
Huntsville, Madison County
1964-present; National Aeronautics
and Space Administration

SATURN V LAUNCH VEHICLE Tranquility Base Huntsville, Madison County 1965-1973; National Aeronautics and Space Administration

SLOSS BLAST FURNACES 1st Avenue and 32d Street Birmingham, Jefferson County 1881-82

STATE CAPITOL

SWAYNE HALL, TALLADEGA COLLEGE Talladega, Talladega County 1857 The first rocket test stand in the U. S. to accommodate an entire launch vehicle for static tests. It was important in the development of the Jupiter C and Mercury-Redstone vehicles that launched the first U. S. satellite and the first American manned spaceflight. October 3, 1985.

Gothic-design country church built by members' slaves, under the direction of master-carpenter slaves. Similar to a design in Richard Upjohn's Rural Architecture. The detail is simple: board-and-batten siding, arched windows, and handsome doors with large wrought-iron hinges. November 7, 1973.

After each Saturn V rocket was tested on the firing stand, it received further testing here as part of the exhaustive ground-testing program that was a primary reason for the success of the American manned space program. October 3, 1985.

Developed by the United States for the purpose of landing a man on the moon. This vehicle was the first Saturn V constructed by the Marshall Space Flight Center under the direction of Dr. Werner von Braun and served as the test vehicle for all of the Saturn support facilities at the Marshall Space Flight Center. February 10, 1987.

Oldest remaining blast furnace complex in the area, in operation until 1970. It symbolizes post-Civil War efforts to industrialize the South and represents Alabama's early 20th century preeminence in pig iron and cast iron pipe production. May 29, 1981.

See FIRST CONFEDERATE CAPITOL

Oldest building on the campus, built before the establishment of the school in 1867. Talladega pursued a strong liberal arts program in a period when vocationalism dominated Black education. December 2, 1974.

Alabama

TUSKEGEE INSTITUTE Vicinity of Tuskegee Macon County 1881

USS <u>ALABAMA</u>
Battleship Parkway
Mobile, Mobile County
1942

USS <u>DRUM</u>
Battleship Parkway
Mobile, Mobile County
1941

WILSON DAM
Florence vicinity
Colbert and Lauderdale
Counties
1918-25

YANCEY (WILLIAM LOWNDES) LAW OFFICE Washington and N. Perry streets Montgomery, Montgomery County 19th century A major institution historically devoted to the education of Black Americans, especially noted for contributions to agricultural research. A memorial to Booker T. Washington, a driving force behind its establishment and prosperity. June 23, 1965. (Some buildings now included in Tuskegee Institute National Historic Site.)

Representative of the <u>South Dakota</u> class of American battleships. Represents the continued American preparation for World War II and the development of more advanced battleship design. From 1943 on, she saw continuouse action in both the European and Pacific theaters of operation and earned nine battle stars for her World War II service. January 14, 1986.

The first of the <u>Gato</u> class of submarines to be completed before World War II. Represents the standard design for American fleet submarines at the beginning of the war. They proved to be fast, strong, well-armed, and suited to the long patrols necessary for fighting in the Pacific, and they bore the brunt of the fighting against the Japanese. She sank 15 Japanese ships and earned 12 battle stars for her service. January 14, 1986.

First hydroelectric operation to come under the Tennessee Valley Authority, and produced the first commercial power in 1925. November 13, 1966.

DE-DESIGNATED: March 5, 1986. (Originally designated November 7, 1973.)

ALASKA (44)

ADAK ARMY BASE AND ADAK NAVAL OPERATING BASE Adak Island, Aleutian Islands 1942-1945

ALASKA NATIVE BROTHERHOOD HALL Katlean Street Sitka, Baranof Island 1914

AMERICAN FLAG-RAISING SITE Castle Hill Sitka, Baranof Island 1867

ANANGULA ARCHEOLOGICAL DISTRICT Ananiuliak Island 6500-6000 BC

ANVIL CREEK GOLD DISCOVERY SITE About 4 miles north of Name 1898

ATTU BATTLEFIELD AND U.S. ARMY AND NAVY AIRFIELDS ON ATTU Attu Island, Aleutian Islands 1942-45

BERING EXPEDITION LANDING SITE Katalla Kayak Island 1741 Located on an island in the Aleutian chain about 1,400 air miles southwest of Anchorage, these World War II installations allowed American forces to mount a successful offensive against the Japanese-held Aleutian islands of Kiska and Attu. As the most westerly naval operations base, starting in the fall of 1942, it provided support to the ships and submarines of the North Pacific Force in their fight against the enemy. February 27, 1986.

Headquarters building of the original chapter of the Alaska Native Brotherhood/Sisterhood Society, founded in 1912 to fight discrimination against Alaska's natives and to obtain recognition of their rights and compensation for their lands. June 2, 1978.

The lowering of the Russian flag and the raising of the United States flag here symbolized the transfer of sovereignty over Alaska. June 13, 1962.

Village site occupied by Eskimo-Aleuts who migrated along the Alaska Peninsula land bridge. Recent excavations have uncovered the earliest flaked stone artifacts of these people yet found. June 2, 1978.

Originally designated December 21, 1965. Now a part of the CAPE NOME MINING DISTRICT DISCOVERY SITES National Historic Landmark.

Site of the only World War II battle in North America. Its occupation by Japanese troops marked the peak of Japan's military expansion in the Pacific. Its recapture by Americans in 1943 was costly for both sides, and provided a base for bombing missions against Japanese territories. February 4, 1985.

Here naturalist Georg W. Steller, surgeon aboard Vitus Bering's St. Peter, made the first attempts at contact between Europeans and Alaskan natives. His investigations are among the first contributions to the West's knowledge of the natural and human history of the region. June 2, 1978.

Alaska

BIRNIRK SITE 5 miles northeast of Barrow 500 AD-present

CAPE FIELD AT FORT GLENN (Umnak Island)
Aleutian Islands
1942-45; U.S. Army

CAPE KRUSENSTERN ARCHEOLOGICAL DISTRICT vicinity of Cape Krusenstern 9000 BC-present

CAPE NOME MINING DISTRICT DISCOVERY SITES Nome vicinity 1898

CHALUKA SITE Nikolski vicinity Umnak Island 1800 BC-present

CHILKOOT TRAIL AND DYEA SITE Dyea to the Canadian border 1897-98

CHURCH OF THE ASSUMPTION OF THE VIRGIN MARY

CHURCH OF THE HOLY ASCENSION Dutch Harbor, Unalaska Island 1826, 1894 A series of mounds that provide archeological information on the development of three distict cultures related to the Eskimos of this area. December 29, 1962.

Was the army's most westerly airfield in the Aleutians when it was built early in 1942. When, on June 3 and 4, 1942, the Japanese attacked Dutch Harbor, a naval installation on adjacent Unalaska Island, aircraft from this field took part in the counterattack. A number of missions were also flown on June 7 out of this base against the Japanese who had occupied Kiska Island, another in the Aleutian chain. The runways and coastal artillery emplacements from World War II survive. May 28, 1987.

Marine beach ridges (numbering 114) and adjacent surface deposits contain evidence of nearly every major cultural period in Arctic history. November 7, 1973. (A portion of this Landmark in December 1980 became part of Cape Krusenstern National Monument.)

Includes the locations of the Lindblom and Discovery Placer gold mines that in 1898 started Alaska's greatest gold rush. June 2, 1978.

Site contains a large stratified village mound appearing to represent all the periods of culture identified in the Aleutians. December 29, 1962

Prospectors and "boomers" used the Chilkoot and White Pass Trails to reach the Klondike and Upper Yukon Valley during the Klondike gold rush. June 16, 1978. (Part of Klondike Gold Rush National Historic Site.)

See HOLY ASSUMPTION ORTHODOX CHURCH

Constructed by the descendants of Russian fur traders who established an outpost here about 1766. The earlier church (1826) was incorporated into the present structure. April 15, 1970.

DRY CREEK ARCHEOLOGICAL SITE Lignite vicinity c. 9000 BC

DUTCH HARBOR NAVAL OPERATING BASE AND FORT MEARS, U. S. ARMY Unalaska, Amaknak Island Aleutian Islands 1940-45

DYEA SITE

EAGLE HISTORIC DISTRICT Eagle . 1880-1904

ERSKINE HOUSE Main and Mission streets Kodiak Kodiak Island Borough prior to 1867

FORT ABERCROMBIE

FORT DURHAM SITE Taku Harbor vicinity Juneau Borough 1840-43

FORT GREELY

FORT MEARS

FORT WAINWRIGHT

FORT WILLIAM H. SEWARD Port Chilkoot, Haines Borough 1904-46 This site, the oldest reliably dated location of human occupation in Alaska, reveals evidence that associates man with extinct Pleistocene fauna of Siberia, thus supporting the theory of a land bridge between Asia and Alaska. June 2, 1978.

Farthest west of the navy's Alaska bases when the Japanese attacked the Aleutians in 1942, it was bombed for two days when the attack came, in the most serious air attack on North American territory during World War II. An important part of coastal defenses throughout the war. February 4, 1985.

See CHILKOOT TRAIL

A miliaary, judicial, transportation, and communications hub of turn-of-the-century interior Alaska. Fort Egbert was established as a control station and headquarters for northern Alaska in 1899. In 1905, Roald Amundsen trekked to Eagle to announce to the world the completion of the first successful Northwest Passage. More than 100 buildings from the historic era remain, including the Federal courthouse and structures of Fort Egbert. June 2, 1978.

The only surviving structure known to have been associated with both the Russian American Company and the Alaska Commercial Company, trading companies that were controlling factors in the Russian and early American administration of Alaska. June 13, 1962.

See KODIAK NAVAL OPERATING BASE

One of three posts established in 1840 by the British Hudson's Bay Company, Fort Durham represented a challenge to Russia's control of Alaska. June 2, 1978.

See KODIAK NAVAL OPERATING BASE

See DUTCH HARBOR NAVAL OPERATING BASE

See LADD FIELD

Substantial remains of the last of 11 forts built during the peak years of the Alaskan gold rush (1897-1904). Closed at the end of World War II. June 2, 1978.

Alaska

FUR SEAL ROOKERIES St. Paul Island Pribilof Islands

GALLAGHER FLINT STATION ARCHEOLOGICAL SITE Sagwon vicinity North Slope Borough 8590 BC

GAMBELL SITES
Northwest Cape
St. Lawrence Island
c. 100 AD-present

HOLY ASSUMPTION ORTHODOX CHURCH Kenai, Kenai Peninsula Borough 1894-96

IPIUTAK SITE Point Hope Peninsula 300 AD

IYATAYET SITE Cape Denbigh Peninsula 6000 BC-800 AD

JAPANESE OCCUPATION SITE, KISKA ISLAND Kiska Island, Aleutian Islands 1942-43 Seal herds on the Pribilofs have long attracted fur hunters: first, the native peoples of the Bering Sea area and, since the 18th century, people of many other nationalities. An international conservation agreement between the United States, the United Kingdom, Russia, and Japan (1911) has insured the preservation of the islands' flourishing herds, in an important example of the principle of international arbitration. June 13, 1962.

The earliest dated archeological site in northern Alaska, demonstrating strong affinities between the indigenous peoples of Alaska and Siberia. June 2, 1978.

House and village sites erected over a period of about 2,000 years. The sequence of cultural waves from mainland Asia produced unique art styles and practices. First sites in the Greater Bering Strait region to be investigated archeologically. December 29, 1962.

Considered the best-preserved example in Alaska of a 19th-century Russian Orthodox church with a quadrilateral ground plan. April 15, 1970.

Largest known Paleo-Eskimo community, covering 200 acres of tundra. Reveals a prehistoric culture which was a forerunner of later Eskimo societies. January 20, 1961.

A stratified site exhibiting evidences of the Denbigh Flint Complex (6000-4000 BC), the Norton Culture (500 BC-300 AD), and the Nukleet Eskimos (800 AD). Many elements of earliest-level artifacts show affinities with Old World Paleolithic and Mesolithic cultures. January 20, 1961.

Occupied in June 1942, by the Japanese during World War II, along with Attu, and abandoned by them in response to the fall of Attu and American attacks on shipping. The Japanese withdrawal was accomplished in secrecy and with no loss of lives. February 4, 1985.

KENNECOTT MINES
North Bank, National Creek
East of Kennicott Glacier
Kennecott, Cordova-McCarthy
Division
1901

KISKA ISLAND

KODIAK NAVAL OPERATING BASE AND FORTS GREELY AND ABERCROMBIE Vicinity of Kodiak Kodiak District 1941-44

LADD FIELD (Fort Wainwright) Vicinity of Fairbanks Fairbanks-North Star Borough 1938-45

LEFFINGWELL CAMP SITE Flaxman Island 1906-14

NEW RUSSIA SITE Yakutat vicinity 1796

ONION PORTAGE ARCHEOLOGICAL
DISTRICT
Kiana vicinity
8000 BC-1700 AD

PALUGVIK SITE Rip Rock vicinity Hawkins Island 1200 AD A vestige of an early 20th-century copper mining camp, it represents the mining technologies of the era. The mines here were among the nation's largest and contained the last of the great high-grade copper ore deposits of the American West. The world's first ammonia-leaching plant, for extracting higher concentrations of ore from low-grade ores, was designed and first successfully used on a commercial scale here. The camp is little changed since its 1938 closing. June 23, 1986.

See JAPANESE OCCUPATION SITE, KISKA ISLAND

Principal advance naval base in Alaska and the North Pacific when World War II broke out, its ships and submarines played a critical role in the Aleutian campaign. A joint operations center here directed Alaskan operations in 1942-43. February 4, 1985.

Begun as an Army Air Corps cold-weather experimental station, it became during World War II the critical site for transfer of American lend-lease planes to Soviet crews. February 4, 1985.

This location includes the cabin of geologist Ernest de Koven Leffingwell, who lived here almost continuously between 1906 and 1914. Nearly singlehandedly, he compiled the first detailed map of the coastline between Point Barrow and Demarcation Bay, an internationally recognized accomplishment. June 2, 1978.

Site of a major Russian trading post destroyed by the Tlingit Indians in 1805. This event long postponed European penetration of the Tlingit region. June 2, 1978.

Nine cultural complexes, ranging from Paleo-Indians of the Akmak Complex (c. 8000-6500 BC) to the Arctic Woodland Eskimo (c. 1000-1700 AD), have existed in this area, which includes Onion Portage site proper, a deeply stratified river-edge site, and a series of smaller sites representing individual settlements of each of the cultures isolated. June 2, 1978.

A stratified midden that gives evidence of a long-established Eskimo culture on the Pacific bays and islands of southern Alaska. December 29, 1962.

Alaska

RUSSIAN-AMERICAN BUILDING #29 202-204 Lincoln Street Sitka, Sitka Division ca. 1850, ca. 1885; Russian American Company

RUSSIAN BISHOP'S HOUSE (Russian Mission Orphanage) Lincoln and Monastery Streets Sitka, Baranof Island 1842, possibly Bishop Innocent; 1887, Peter Callsen

ST. MICHAEL'S CATHEDRAL Lincoln and Maksoutoff Streets Sitka, Baranof Island 1848-50, 1960s (reconstructed)

SITKA NAVAL OPERATING BASE & U.S. ARMY COASTAL DEFENSES Sitka, Sitka District 1939

SITKA SPRUCE PLANTATION Unalaska vicinity Amaknak Island 1805

SKAGWAY HISTORIC DISTRICT AND WHITE PASS Skagway and vicinity 1897-98 A rare example of a Russian-American colony structure. One of the few structures extant that bears witness to Russian colonial ventures in present-day United States territory. A finely crafted, vernacular log building covered with siding, it is the only secular building remaining from Sitka's first years as a seat of government in the period following the purchase of Alaska by the United States in 1867. May 28, 1987.

A 2-story log structure of Russian vernacular design that served as the headquarters of the Russian Orthodox diocese of Sitka and residence of the Bishop (1843-72, 1903-69), as well as office, mission school, and personal chapel of the first bishop of Alaska. Among the best surviving examples of a 19th-century Russian residence in the United States. (Included in Sitka National Historical Park.) June 13, 1962.

Episcopal seat of the Russian Orthodox Church in Alaska, built for the first Bishop of Alaska. June 13, 1962.

Was the Navy's first air station in Alaska when World War II began. Planes patrolled Southeast Alaskan waters to track down reported submarine or other enemy activity. In the first months of the war it was one of the few installations prepared to protect the North Pacific. August 11, 1986.

Site of the oldest recorded afforestation project on the North American continent, representing a Russian attempt to make the colony at Unalaska self-sufficient in timber. June 2, 1978.

An Alaskan frontier mining town, situated on a prime route to the Upper Yukon Valley and Klondike gold-bearing regions. Almost 100 structures remain from the gold rush era. White Pass Trail, to Skagway's northeast, is about 19 miles long and reaches the maximum elevation of nearly 3,000 feet at the crest of the pass, where it crosses the international boundary into Canada. (Part of Klondike Gold Rush National Historical Park.) June 13, 1962.

SOURDOUGH LODGE Gakona vicinity 1903-05

THOMAS (GEORGE C.)
MEMORIAL LIBRARY
901 lst Avenue
Fairbanks
1901

THREE SAINTS BAY SITE Old Harbor Kodiak Island Borough Prehistoric, 1784

WALES SITE Near Cape Prince of Wales 500 AD-present

YUKON ISLAND MAIN SITE Kachemak Bay, Yukon Island c. 750 BC This 1-story log lodge is one of the last remaining "roadhouses" built to serve travelers on the trail to the Klondike gold fields. It exemplifies structures built for travelers in early 20th century Alaska. June 2, 1978.

This log structure was the site of a 1915 meeting between U.S. Government officials and native Alaskans to settle land and compensation claims. The meeting started a dispute that was not resolved until passage of the Alaska Native Claims Settlement Act (1971). June 2, 1978.

Site of the first permanent Russian settlement in North America, and also of prehistoric Eskimo occupation. June 2, 1978.

Site includes mounds, a midden, a present-day Native Alaskan community, and the first spot in Alaska where archeologists found evidence of the Thule Culture.

December 29, 1962

Oldest and most continuously occupied archeological site on Cook Inlet. Helped define the Kachemak Bay Culture, which is related to that of the Salish Indians to the south and to that of the Kamchatkans and Ainu of Asia. December 29, 1962.

AMERICAN SAMOA (1)

BLUNTS POINT BATTERY, American Samoa's Defenses Matautu Ridge vicinity of Pago Pago Tutuila Island 1940-43 Became the largest Marine Corps installation in the Pacific as Marines were rushed there to strenthen its defenses following the Japanese attack on Pearl Harbor. Samoa was a vital link in the route from the United States to Australia and New Zealand, and there was considerable evidence that the Japanese were preparing to seize the Samoa Islands. Even when invasion was no longer a threat, after the Battle of the Midway, this site played an important role as a Marine Corps advanced training center in jungle warfare and as a staging area for battles in the South Pacific. A rare example of a World War II coastal gun that remains in situ in the Pacific today. May 28, 1987.

One of the most important Hopi Indian villages, reached by Coronado's men in 1540. Excavation has uncovered much of the pueblo. Located on the Hopi Indian Reservation. July 19, 1964.

Pueblo ruin of about 10 acres. An example of Pueblo methods of building communities. July 19, 1964.

These structures reflect the architect's important work in Park architecture over the first 3 decades of the 20th century. The Hopi House is modeled after of a Hopi pueblo and its design was a product of a movement in the Southwest to preserve tangible aspects of Indian cultures. The Lookout was the first building, in what became a National Park area, to appear to grow out of the landscape and it serves as a prime lesson in creating architecture harmonious with landscape. Hermit's Rest is similar to The Lookout, but has many aspects of a medieval fairytale castle creating a sense of nostalgia. Desert View Watchtower has particularly noteworthy interior spaces based on circular forms and archeology and ethnohistory played a large part in the design of this towered overlook. May 28, 1987.

Under the auspices of the Carnegie Institution of Washington, study of the ecology of arid regions was initiated here. Subsequently used as an experiment station by the U.S. Forest Service. December 21, 1965.

See COLTER (MARY JANE) BUILDINGS

This site, on the west bank of Whitewater Creek, has yielded information on southern Arizona's prehistoric climate, ecology, and animal life, and on pre-ceramic Cochise Culture. January 20, 1961.

Is a transitional structure that bridged the gap between the Victorian resort architecture of the late 19th century and the rustic architecture later deemed appropriate for the great scenic and natural wonders of the United States. Built for the Santa Fe Railway next to the canyon rim, it became the focal point for the railway's resort at Grand Canyon. May 28, 1987.

Fort Bowie commanded the eastern entrance of strategic Apache Pass, and was a focal point in Army operations against the Chiricahua Apache in the 1860s and '70s. December 19, 1960. (Now within the National Park System as Fort Bowie National Historic Site.)

Installation central to the campaign to capture Geronimo. Headquarters of all-Black regiments from 1892 to 1900 and again in 1928-42. May 11, 1976.

The platform mound, cremation area, and ball court at this site suggest that ceremonial functions were connected with the complex. July 19, 1964.

Is the only remaining structural log railroad depot in the United States. Built for the Atchison, Topeka and Santa Fe Railroad, it helped establish the rustic sense of place of the Grand Canyon by being the first building the railway passengers encountered upon arriving. Symbolic of the "destination resort" that the railroad developed Grand Canyon into, it is one of a handful of rustic depots constructed. May 28, 1987.

Is the most intact rustic hotel development remaining in the National Parks from the era when railroads, in this case the Union Pacific, fostered construction of "destination resorts." The main lodge building was rebuilt in 1936 following a devastating fire, but its most important interior spaces retained their scale, materials, and flavor, and the deluxe cabins and standard cabins of log and stone construction also kept their fabric, layout, and ambiance. May 28, 1987.

This structure took its shape from the surrounding landscape and is subtly connected to its natural environment by natural feeling forms in its style and the native material used to construct it. The texture of the stonework and its rough courses mimicking the local geology are its only "ornament," again using its surrounding environment to develop its appearance and form. May 28, 1987.

SAN XAVIER DEL BAC MISSION 9 miles south of Tucson Pima County 1783 Probably the oldest continuously inhabited pueblo in the Southwest. Site documents Hopi culture and history from before European contact to the present day. Within the present Hopi Indian Reservation. July 19, 1964.

Done in the Spanish-Pueblo Revival style, the interior spaces have unusually high quality of design. Particularly notable is the former Trading Post Room, illuminated by a translucent skylight with multiple panes of glass painted in designs of prehistoric Pueblo pottery. The murals are by the late Hopi artist, Fred Kabotie. May 28, 1987.

The only important early Phelps Dodge office existing in the United States. This structure symbolizes the company's pioneer role in western copper mining, as well as its growth and adaptation from a family-owned East Coast mercantile house of the 1830s into a modern corporation. May 4, 1983.

Region of Point of Pines village contains a considerable number of ruins representing a long period of occupation. University of Arizona excavations here contributed significantly to archeological concepts about culture in the area. Within the present San Carlos Indian Reservation.

July 19, 1964.

One of the few remaining large Hohokam village sites in the area. Site evidences irrigation methods of both Native Americans and Anglo-Americans. July 19, 1964.

First major project completed under the Reclamation Act (1902). Built to provide adequate water storage for the Salt River Irrigation Complex. May 23, 1963.

Illustrates the continuity of Spanish and American cattle ranching in the Southwest. Abundant springs made the Ranch a stopping-place in the era of U.S. westward expansion. July 19, 1964.

One of the finest Spanish Colonial churches in the United States, featuring a richly ornamented Baroque interior. Completed and consecrated by Franciscans, and built by Papago Indians. October 9, 1960. SIERRA BONITA RANCH 10 miles southwest of Bonita Cochise and Graham Counties 1872

YUMA CROSSING AND ASSOCIATED SITES Yuma and vicinity, Yuma County 18th-19th centuries First Anglo-American cattle ranch in Arizona to survive Apache attacks. Fort-like, it helped open the grasslands of Arizona to European-American cattle ranchers. July 19, 1964.

This desert complex contains the winter home, office, and school of architecture designed by Wright. Often acclaimed as one of his masterworks, this complex and in Taliesin (East) near Spring Green, Wisconsin (also a National Historic Landmark), express Wright's educational theories and vision of society, as well as his mature architectural concepts. May 20, 1982.

Site of rich silver mines, Tombstone attained a population of 7,000 by 1881. Gunfight at the OK Corral symbolized the town's reputation for lawlessness. July 4, 1961.

Built on a plan mimicking, in part, the spatial layout of a mission complex. A handsome example of Mission Revival architecture, certain architectural elements, such the entrance doors, were replicas of similar features from missions of the Sonora. The museum and attached courtyard were used as interpretive devices while the structures walled off and protected the remains of the Tumacacori Mission. May 28, 1987.

Illustrates early human association with extinct Pleistocene mammals and a history of continuous Indian occupation in Arizona from 2000 BC to the present. Situated on the Papago Indian Reservation. January 20, 1961.

Site of a major Indian community. Has yielded information on cultural developments in the Flagstaff area up to 1130. Located in Coconino National Forest. July 19, 1964.

Yuma Crossing was significant as a transportation gateway on the Colorado River during the Spanish Colonial and U.S. westward expansion periods. The surviving buildings of the Yuma Quartermaster Depot and Arizona Territorial prison are the key features on the Arizona side of the border. (Also in California.) November 13, 1966.

NODENA SITE adjacent to the town of Wilson Mississippi County 1200 Henri de Tonty established the first successful French settlement in the Lower Mississippi Valley, which became known as Arkansas Post in 1682. The Post's history is complex, involving Spanish as well as French operations. October 9, 1960. (Now within the National Park System as the Arkansas Post National Memorial.)

Illustrative of the popularity of the spa movement in the United States in the 19th and 20th centuries. The largest grouping of bathhouses in the United States, it is also an excellent collection of turn-of-the-century eclectic buildings in the Neoclassical, Renaissance-Revival, Spanish, and Italianate styles. The hot springs are the resource for which the area was set aside as the first Federal recreational reserve in 1832. May 28, 1987.

Among the earliest U. S. military posts in Missouri Territory. The first fort built here was established in 1817 following the movement of some Cherokees and other Native Americans to areas west of the Mississippi. The second, begun in 1838, was garrisoned until the U.S. District Court for the Western District of Arkansas moved to the town of Fort Smith in 1871. December 19, 1960. (Now within the National Park System as Fort Smith National Historic Site.)

In the fall of 1957, the first major confrontation over implementation of the Supreme Court's 1954 decision outlawing racial segregation in public schools took place here. President Eisenhower used troops to enforce Federal court orders to desegregate the school. May 20, 1982.

The epitome of rustic monumentality and luxury, with rough granite piers and concrete formed and stained to imitate wood. Stained-glass windows and murals in geometric Indian/Deco designs on the interior enhance the structure's monolithic quality. May 28, 1987.

Begun as a military fortification and the site of the first U.S. lighthouse on the Pacific Coast, built in 1854. Was the location of the first permanently mounted cannons on the West Coast. First official army prison in the nation. Upon transfer to a civilian penitentiary in 1934, it became the repository for the most hardened criminals. Represents the far end of the penological spectrum, designed for punishment and incarceration only, rather than rehabilitation. (Part of Golden Gate National Recreation Area.)
January 17, 1986.

Original 1-story, rectangular 2-room adobe house was "Americanized" and enlarged in the 1850s. The resulting house is typical of the "Americanization" of traditional Mexican houses by early U.S. settlers in the State. April 15, 1970.

First established in 1846 as a cut-off route south of the Columbia River in order to avoid the difficulties and dangers of the Fort Hall, ID to Columbia River section of the Oregon Trail. Passing through the Black Rock Desert in Northwestern Nevada, an increasing number of emigrants followed the trail even though it ultimately proved no safer than the Oregon Trail.

DETERMINED ELIGIBLE: December 21, 1981.

Has a curving, Streamline-Moderne design that extends from its buildings through the shape of the landscape. Is the product of the Works Progress Administration and the Federal Arts Project of the late 1930s, and the park reflects the smooth clean lines of that period's art and architecture. May 28, 1987.

Designed by Mrs. Hoover, it strongly reflects the couple's characters and tastes. His residence when he was elected President, it also served as their retirement home from 1933 to 1944. February 4, 1985.

Built in less than one year, it is one of the great luxury seashore hotels in the United States, and the first to use electric lighting on a large scale. May 5, 1977.

Home of one of America's greatest 20thcentury astronomers who, among other accomplishments, discovered extragalactic nebulae and their recession from each other. December 8, 1976.

First mission, founded in 1787, was destroyed by an earthquake in 1812. Present buildings are a reconstruction of a second mission which fell into disrepair after secularization in 1834. An outstanding example of a detailed restoration of a representative mission complex and gardens, in an unaltered rural setting. April 15, 1970.

A 160-acre salt-water body in Oakland's business district. The oldest legally established public wildlife sanctuary in the United States. May 23, 1963.

Residence of the State's first Military Governor, Stephen W. Kearney. Designed in the Monterey Colonial Style, rather than in the more traditional Spanish-Mexican adobe style. December 19, 1960.

Little-altered example of a Monterey Colonial ranch house, a building style unique to California. Combines elements of the Spanish-Mexican adobe with the New England frame house techniques. Located on Camp Joseph H. Pendleton. November 24, 1968.

LOWER KLAMATH NATIONAL WILDLIFE REFUGE East of Dorris, Siskiyou County 1908 Originally constructed in 1903, moved and rebuilt in 1919, it was the principal foothold of the influential Sierra Club in the Sierra Nevada Mountains. Is a transitional building in 20th century architecture, with strong European roots in its Tudor Revival design combined with an interesting use of building materials found in the work of architects of the Bay Area tradition. An outstanding example of the theory that the materials and site should determine the design of a building. May 28, 1987.

Stanford's Sacramento home during his service as Governor of the State of California, and as one of the "Big Four" who built the first transcontinental railroad. His rise to fame and wealth are reflected in his alterations of the house. Is the only surviving structure significantly associated with his career.

May 28, 1987.

An important early 20th-century American author, London wrote several of his novels here, and is buried on the property, now the Jack London Historical State Park. December 29, 1962.

Good example of a Spanish-Mexican hacienda. On the main Santa Barbara-Monterey Road, it was a popular overnight stopping-place. April 15, 1970.

This reinforced concrete structure, the site of Summer Olympics in 1932 and 1984, is one of the world's premier outdoor sports facilities. July 27, 1984.

Combines Monterey Colonial architecture with a traditional Spanish-Mexican hacienda plan. April 15, 1970.

Set aside by President Theodore Roosevelt, one of the first areas of public land to be reserved as a Federal wildlife sanctuary. (Also in Oregon.) January 12, 1965.

MONTEREY OLD TOWN HISTORIC DISTRICT Monterey, Monterey County 19th century Represents the ten relocation centers to which, during World War II (beginning in 1942), people of Japanese descent from certain designated areas in West Coast states were removed without being accused of any crimes or receiving hearings or trials. February 4, 1985.

The U.S. Navy's first permanent installation on the Pacific Coast, it embodied the Nation's effort to extend its naval power into the Pacific Ocean. The first U.S. warship (1859) and first drydock (1872-91) constructed on the West Coast were built here. May 15, 1975.

The first major poet of the far western frontier, Miller wrote about Indians, cowboys, and western scenic beauty. December 29, 1962.

One of the two large wooden scaffolded roller coasters with structural integrity that remain on the West Coast. The "Earthquake" roller coaster, as it is also called, is the only one on the West Coast by noted coaster builders Prior and Church. Is the prime survivor and most visible symbol of the Mission Beach Amusement Center, the centerpiece of sugar-heir John D. Spreckels' ambitious early 20th-century recreational development. February 27, 1987.

The largest Mission Revival building in California; contains a hotel, shops, and a chapel centered around an open patio. Furnishings include pieces from the Orient, Mexico and Europe, as well as Tiffany windows. May 5, 1977.

Monterey served first as the Spanish, and then as the Mexican, capital of California (1776-1848) and was also a center of economic and social activity. Forty-three 19th-century adobe structures are in the district. April 15, 1970.

Oldest building in continuous use by a major oceanographic research institution in the U.S. The first permanent structure of the Scripps Institution, an early marine biological station that became the nation's first oceanographic institute in 1925. Designed by a noted California architect, it is an early example of reinforced concrete construction. May 20, 1982.

Became one of the principal mints in the U.S. in the 19th century and chief Federal depository for gold and silver mined in the West. One of the few downtown buildings to survive the 1906 earthquake. July 4, 1961.

See TAO HOUSE

One of the major remaining Art Deco movie palaces left in America. May 5, 1977.

A straightforward statement which is characteristic of contemporary architecture of the San Fransisco Bay area. The use of highly expressive basic forms and simple, natural materials was prompted by the harsh climate at this site high in the Sierra Nevada. A good example of a building's design being determined by site and materials, and not by style. May 28, 1987.

Largest existing example of domestic adobe architecture in the United States. Built by the commandant of the Sonoma Pueblo as headquarters for his ranch. April 15, 1970.

See WELL NO. 4

The first antenna to support the National Aeronautics and Space Administration's unmanned exploration of deep space. Prototype antenna for the entire Deep Space Network for tracking deep space vehicles. October 3, 1985.

Established by the Spanish to guard the entrance to San Francisco harbor. Head-quarters of the United States Army on the Pacific Coast since 1849. June 13, 1962.

From 1864 to 1875, Ralston played a major role in exploiting the Comstock Lode mines in Nevada. Now part of the campus of the College of Notre Dame. November 13, 1966.

Representative of the National Park Service's first director, Stephen T. Mather's commitment to an architectural aesthic appropriate for the National Park lands. He personally funded this structure and, it became the design standard of building in the National Park System through World War II. May 28, 1987.

This dry lakebed provided a natural laboratory for flight testing of aircraft that were on the cutting edge of aerospace and aviation technology. It is the primary resource associated with establishment of Edwards Air Force Base, the world's premier flight testing and flight research center. October 3, 1985.

The man-made element plutonium, used in nuclear reactors and atomic explosives, was first identified in this laboratory. December 21, 1965.

The site, since 1922, of the earliest and most renowned post-season college football "bowl" games, held every New New Years Day since 1916. It also commemorates the civic work of the Pasadena Tournament of Roses Association, the sponsor of the annual flower festival, parade, and bowl game. Also, one of the venues of the 1932 and 1984 Olympics. February 27, 1987.

Confer and Associates The Jet Propulsion Laboratory has been the primary NASA center for the unmanned exploration of the planets. The Space Flight Operations Facility is the hub of the communications network through which NASA controls its unmanned spacecraft flying in deep space. October 3, 1985.

Built for the Air Force for their Intermediate Range Ballistic Missile (IRBM)
Testing Program. The first launch occurred on June 16, 1959, by the Royal Air Force (United Kingdom). The blockhouse is today one of the best existing examples of the working electronics used to support launches of that era and the entire complex is the best surviving example of a working launch complex built in the 1950s at the beginning of the American effort to explore space.

June 23, 1986.

The only operative unaltered survivor of the many Liberty ships built during World War II as an emergency response to a critical shortage of maritime cargo ships. Participated in the D-Day invasion of France in 1944. In 1984 she was made a National Historic Mechanical Engineering Landmark by the American Society of Mechanical Engineers. (Included in the Fort Mason Center at the Golden Gate National Recreation Area.) January 14, 1986.

See LELAND STANFORD HOUSE

A 3-masted, iron-hulled vessel, the only extant Alaskan salmon vessel of its type. Used to carry fishermen and cannery employees to the Alaskan fisheries. November 13, 1966.

Located at the convergence of overland immigrant trails, the fort was an invaluable aid to American settlement of California. Only one original building remains. January 20, 1961.

O'Neill, winner of the Nobel Prize for literature in 1936, wrote some of his most significant plays here, where he lived from 1937 to 1944. July 17, 1971. (Became part of the National Park System as Eugene O'Neill National Historic Site in 1976.)

See FORT SAN CARLOS DE BARRANCAS

Two-story frame house belonging to the civil rights leader, administrator, educator, adviser to presidents, and consultant to the United Nations, on the campus of the school she established in 1904. December 2, 1974.

Site of a fort established by the British in 1814 in conjunction with the War of 1812. After the war, the fort became known as "Negro Fort", because of the runaway slaves who occupied it. In 1816 the U.S. Army destroyed the fort, helping precipitate the First Seminole War. May 15, 1975.

Since the launch of America's first earth satellite in 1958, the Cape Canaveral Air Force Station has been America's premier facility devoted to space exploration. The Landmark consists of discontiguous sites within the Air Force Station, encompassing Launch Pads 5, 6, 14, 19, 26, 34, the mobile service tower at Pad 13, and the original Mission Control Room. April 16, 1984.

St. Augustine Parish, established in 1594, is the oldest Roman Catholic parish in the mainland United States. The Cathedral is largely a restoration of an 18th-century church. April 15, 1970.

Site of the first military confrontation of the Second Seminole War (1835-42). Symbolic of Chief Osceola's concerted plan of resistance to President Jackson's removal policies. Now forms Dade Battlefield Memorial State Park. November 7, 1973.

See U.S. CAR NO. 1

A semicircular brick fortification, this fort was an important northern outpost of the Spanish Caribbean empire until Andrew Jackson captured it in 1814 in response to British-Spanish collaboration in the War of 1812. October 9, 1960. (Included in Gulf Islands National Seashore.)

Part of the first commercially successful sugar plantation in the Islands, started by a group of New Englanders in 1835. December 29, 1962.

This area, dubbed the "Pineapple Pentagon," housed the offices and headquarters of the commanding general and his staff, U.S. Army Forces, Pacific Ocean Areas, during World War II. By 1944 this command was responsible for the supply and administration of all U.S. Army personnel in the Central and South Pacific, and from 1943 to 1945, carried out logistical planning for the invasion of the Gilberts, Marshalls, Marianas, Guam, Palau, and Okinawa. May 28, 1987.

See U.S. NAVAL BASE, PEARL HARBOR

Largest temple in the Hawaiian Islands. Is an excellent example of a combination platform and court-type heiau. Believed to have been built by Riilani, a Mauiruling chief. January 29, 1964.

Impressive temple, perhaps the most famous heiau on the islands. Present structure was built or rebuilt by Kamehameha the Great and is closely connected with his rise to power as ruler of all the islands. December 29, 1962. (Puukohola Heiau National Historic Site is now within the National Park System.)

Oahu's greatest priests came from this district. The platform-type temple with its low-walled court is the largest on Oahu Island. December 29, 1962.

WHEELER FIELD Vicinity of Schofield Barracks Honolulu County December 7, 1941 Ruins of the fort commemorate the period of international rivalry for influence in the Islands. Russian and Aleutian settlers were expelled in 1817.

December 29, 1962.

These sites provide the longest and most complete archeological record of human occupation on the islands. December 29, 1962.

See OLD SUGAR MILL OF KOLOA

The Base has been important to American naval power in the Pacific since its activation. The attack on Pearl Harbor by Japan in 1941 precipitated the United States' entry into World War II. January 29, 1964.

Only World War II submarine now at Pearl Harbor. Represents the role of Pearl Harbor in the submarine war against Japan. On the <u>Bowfin</u> the Rear Admiral Ralph W. Christie, Commander of the U.S. Submarine Force, Southwest Pacific, became the only U.S. Navy Flag officer to be aboard a submarine during war patrols. Sank 16 Japanese vessels and received 8 battle stars, the Presidential Unit Citation, and the Navy Unit Commendation for her service in World War II. January 14, 1986.

Consists of a city of refuge, temples, royal birthstones, and a sacrificial rock. An important archeological complex covering a long period in Hawaii's prehistory. December 29, 1962.

Bombing and strafing this site were important objectives of the Japanese force that attacked the Oahu on December 7, 1941. The Japanese attack destroyed 83 aircraft, and rendered this facility practically helpless. The 1941 flight line, hangars, and barracks building survive at what is today a U.S. Air Force facility. May 28, 1987.

CHICAGO UNION STOCKYARDS, OLD STONE GATE

Home of the founder of the <u>Chicago Defender</u>, a leading black newspaper. Abbott has been called the founder of the modern Black press. December 8, 1976

The first institution of its type in the Western Hemisphere. Given to the people of Chicago by Max Adler, who also donated an extensive collection of antique scientific instruments for display. It played a role in the second great Chicago exposition, "A Century of Progress" (1933-34). February 27, 1987.

Among the most important buildings in the history of modern architecture. It reveals Sullivan's developing ability to solve the aesthetic and functional design problems of tall buildings, and the capacity of Adler to overcome engineering obstacles. May 15, 1975.

Founded in 1846 by a group of Swedish religious dissenters. Its archives, artifacts and structures today are important documents for the study of immigration, ethnic heritage, and nineteenth-century communitarian societies. April 27, 1984.

Largest prehistoric Indian site in the United States and the fountainhead of Mississippian culture. Now a State park. July 19, 1964. (Placed on the World Heritage List in 1982.)

An original and practical design for a dry goods palace. Sullivan's style of organic ornament is fully developed in this building, which is remarkable for the integration of its horizontal composition and its details. May 15, 1975.

Site and building that encompass the institution most responsible for bringing order to the grain markets of the 19th century. June 2, 1978.

Site of the home of the Black fur trader and pioneer whose establishment of a trading post at this location marked the beginning of the city of Chicago. May 11, 1976.

See entry under Missouri listings.

Destroyed by the British in 1772, the fort was the center of French civil and military government in the Illinois area in the 18th century. Now a State park. October 9, 1960.

A 230-acre historic core area within modern Fort Sheridan. Landscaped by O. C. Simonds, the district contains 66 buildings designed by the firm of Holabird and Roche and 26 buildings constructed from standardized plans of the Quartermaster General. Fort Sheridan's importance lies in its unusual associations with notable architectural firms and the integrity and number of the surviving buildings. April 20, 1984.

Designed by Richardson late in his career, this house represents the height of his Romanesque style. Commissioned by John Glessner, president of International Harvester. January 7, 1976.

Galena's residents presented this house to the victorious Union commander in 1865. Grant lived here until he became Secretary of War in 1867. December 19, 1960.

Dedicated as a memorial to World War I soldiers, and intended to embody civic pride, it is an imposing presence on the Chicago lakefront. Was designed to be adaptable for a variety of public gatherings as one of the first multi-purpose stadiums. When it opened in 1924, it was among the largest stadiums in the world. It has been the home of the Chicago Bears since 1971. February 27, 1987.

WEST BADEN SPRINGS HOTEL Off Indiana 56 West Baden Springs, Orange County 1901-02, 1932; Harrison Albright One of the three earliest Dentzel menagerie carousels that are virtually intact, out of more than 100 built by the company. February 27, 1987.

Home (1889-1906) of the major contributor to the Studebaker Bros. Co., the largest manufacturer of horse-drawn vehicles in the world by the 1890s. The company was the only U.S. wagon-manufacturing firm to convert successfully to automobile manufacture. December 22, 1977.

William Henry Harrison's victory here destroyed Indian leader Tecumseh's plans for a confederation of Indian groups to block westward expansion. October 9, 1960.

Used by Benjamin ("Ben") E. Wallace, and his successors, the American Circus Corporation and the Ringlings. Contains several rare examples of structures associated with the heyday of the American circus—the former Office structure, the Elephant, Hippo, and Cat Barn and the Tiger, Lion, and Bear Barn. They date from an era of prosperity in the business, the 1920s. February 27, 1987.

Used by the author of <u>Ben Hur</u> from 1898 to 1905. Earlier, as a Union general, Wallace played an important part in the victory at Fort Donelson and the battle of Monocacy, Md. During Reconstruction, he was an influential Radical Republican. May 11, 1976.

The focus of the community that dubbed itself the "Wiesbaden" (West Baden) or "Carlsbad" of America because of its mineral water springs. The hotel is a major feat of engineering, with an immense covered steel and glass dome, 200' in diameter, which was the largest in world when built. February 27, 1987.

The most conspicuous manifestation of horse raising and racing in Lexington, the heart of Kentucky "bluegrass" country. Is the site of the Phoenix Handicap, the oldest stakes race in the United States, and the Blue Grass Stakes. Also preeminent for its annual horse sales. Track originally begun by Jack Keene, an extraordinary figure in American racing. September 24, 1986.

See JACOBS HALL ...

The builder, John Brown, served as U.S. Senator after Kentucky attained Statehood. He patterned his house after the Federal-style architecture of Philadelphia, and it is a fine example of Federal domestic architecture. November 11, 1971.

Berea is significant in the history of U.S. education as the first college established in the United States for the specific purpose of educating Blacks and Whites together. Lincoln Hall is closely associated with Berea's history. December 2, 1974.

George Rogers Clark lived here with his sister and her husband as a semi-invalid from 1809 until his death in 1818. Clark was the hero of the Western theater of the American Revolution, achieving fame for his conquest of the trans-Ohio frontier at such places as Vincennes, Indiana, and Kaskaskia and Cahokia, Illinois. June 23, 1986.

Classical Revival in style, this station represents 19th-century efforts to include symbolic and monumental functions in industrial architecture. The engine room is in the form of a temple, and a standpipe tower imitates triumphal Roman columns. November 11, 1971.

Recognized as the father of abdominal surgery, Dr. McDowell successfully performed a difficult abdominal operation in 1809 in this house. The operation demonstrated the possibility of safely opening the abdominal cavity. January 12, 1965.

TAYLOR (ZACHARY) HOUSE (SPRINGFIELD) 5608 Apache Road Louisville, Jefferson County c. 1780

TRANSYLVANIA COLLEGE, OLD MORRISON

YOUNG (WHITNEY M.) BIRTHPLACE AND BOYHOOD HOME Campus of Lincoln Institute Shelby County A Greek Revival-style building, among the most sophisticated examples of small-scale commercial architecture in the U.S. It adapts classical idioms to a narrow downtown lot, most notable in its front facade, which consists of a monumental distyle-in-antis doorway. November 11, 1971.

The college is one of the oldest institutions of higher learning west of the Appalachians. Old Morrison was among the first buildings constructed on the campus. December 21, 1965.

A simple 2-story temple-form stone building, the first major work of Shryock. Represents the introduction of the Greek Revival style in Kentucky. November 11, 1971.

Site of the battle in October 1862, which climaxed the major Confederate invasion of Kentucky, and in conjunction with the Battles of Antietam, Iuka, Corinth, and Newtonia broke the back of a Confederate offensive along a 1000-mile front. December 19, 1960.

Among the most successful of the 19th-century religious communitarian settlements. By 1820, some 500 Shakers lived here on 3000 acres of land. The community was dissolved in 1910. November 11, 1971.

See TAYLOR (ZACHARY) HOUSE

See OLD STATE HOUSE

Taylor's boyhood home. He returned here often during his military career and briefly again before his short term as President of the United States. July 4, 1961.

See OLD MORRISON

Young, the Executive Director of the National Urban League 1961-1971, drew unprecedented support for the League's social and economic programs, working for an equality beyond civil rights causes. He was born in this simple 2-story frame house in 1921, and lived here until he enrolled at Kentucky State College at the age of 15. April 27, 1984.

In March 1845, Texas was offered admission to the Union and Gen. Zachary Taylor's "Army of Observation," stationed at Fort Jesup, was ordered to hold its troops ready to march into Texas. After Texas joined the Union, Taylor was ordered to move into the new State. Now Fort Jesup State Monument. July 4, 1961.

Built by the French in 1746 and rebuilt by the Spanish in 1791, on the east bank of the Mississippi River across from the later Fort Jackson. This fort, like Fort Jackson, surrendered after an attack by Flag-Officer David G. Farragut's force in 1862. December 19, 1960.

Finest remaining work of architect James Gallier, Jr. Originally designed as headquarters for the city government. May 30, 1974.

James Gallier, Jr., one of New Orleans' prominent architects, built this house for himself. A typical Louisiana town-house, almost all the living rooms open to porches, galleries, or balconies. May 30, 1974.

A residential section fashionable since the 1830s, with homes representing all styles of popular architecture from antebellum times to the early 20th century. May 30, 1974.

This eclectic structure illustrates the influence of American building styles upon New Orleans architecture after the Louisiana Purchase. May 30, 1974.

Excellent example of a French Colonial, 2-story, raised cottage. The second-story walls are cypress timbers filled with a clay and Spanish moss mixture. April 15, 1970.

MCNEIL (SAINT) PUMPING STATION

MADAME JOHN'S LEGACY 632 Dumaine Street New Orleans, Orleans Parish 1722-28, 1788 (rebuilt) Center of the city since the first plan was drawn up in 1720. Here, in 1803, the American flag was raised for the first time over the newly purchased Louisiana Territory. October 9, 1960.

One-and-a-half story cottage traditionally associated with Jean and Pierre Lafitte, adventurers who posed as blacksmiths while engaging in illegal business ventures. Of brick-between-post construction once typical of the area, it is a rare survior of its type for the period. April 15, 1970.

Founded in 1721 by the Spanish to check French expansion into east Texas, it played a part in maintaining the international balance of power between Spain and France. Served as administrative capitol for the province of Texas from 1751 to 1770 before being abandoned in 1773. One of the few Spanish presidios in the borderlands that has not been impacted by modern agricultural practices or urban expansion. It provides opportunities to reconstruct life at a Spanish colonial frontier settlement, including European-Indian interdependency. June 23, 1986.

This building was the last structure designed by Latrobe. It housed the first bank incorporated in Louisiana after its admission to Statehood. May 4, 1983.

The Capitol is a 34-story, 450-foot skyscraper ornamented inside and out with features depicting the activities and ideals of the State. Built at the direction of Governor Huey P. Long, it was a physical symbol to the people of Louisiana that their State had entered the modern era. December 17, 1982.

New Orleans, Orleans Parish
c. 1791-1813; Gilberto Guillemard

ST. MARY'S ASSUMPTION CHURCH 2039 Constance Street New Orleans, Orleans Parish 1858 Described as castellated Gothic, the building is considered one of the finest examples of Gothic Revival architecture in the country. May 30, 1974.

One of the best examples of a French Colonial plantation house of the 2-story raised-cottage type. April 15, 1970.

See JACKSON SQUARE

High-style residences and shops combine in 2 block-long red brick structures designed to give Jackson Square architectural unity and provide urban amenities. The buildings combine the monumentality of Greek Revival civic design with the free use of ornamental ironwork typical of New Orleans' Vieux Carre.

May 30, 1974.

A Confederate stronghold invested and captured by Union forces led by Gen.
Nathaniel P. Banks. Scene of two bloody assaults (May 27 and June 14, 1863). In the first of these attacks, the 1st and 3rd Native Guards, composed of free Blacks and ex-slaves from Louisiana, suffered heavy losses. The July 8, 1863 surrender of Port Hudson gave Union forces possession of the last Confederate stronghold on the Mississippi. May 30, 1974.

Largest and most complex ceremonial earthworks of its kind yet found in North America. June 13, 1962.

Designed as a companion building to the Cabildo and intended as the parish rectory for St. Louis Cathedral. Construction was begun during the period of Spanish rule. April 15, 1970.

Constructed for German Catholics, the Church's interior and exterior ornamentation make it a striking example of German Baroque architecture.

May 30, 1974.

STATE CAPITOL

UNITED STATES CUSTOMHOUSE 423 Canal Street New Orleans, Orleans Parish 1848-62; Alexander Thompson Wood

UNITED STATES MINT, NEW ORLEANS BRANCH 420 Esplanade Avenue New Orleans, Orleans Parish 1835-61; William Strickland Its early construction date, size, and interior decoration make St. Patrick's one of the most noteworthy American examples of the Gothic Revival style. May 30, 1974.

Unique among plantation houses for its foundation structure, plan, and silhouette. Its mixture of architectural styles is dominated by an immense ornate hip roof and bracketed cornice. Paintings decorate ceiling and door panels. May 30, 1974.

A superb example of a planter's house before the height of a period of competitive ostentation, and of the application of Greek Revival style to the traditional French Colonial house plan, resulting in a house type distinctive to Louisiana. A 2-story porticoed townhouse made of locally fired coral-colored brick. May 30, 1974.

Not only buildings, but also components such as reservoirs, pipes, filters, boilers, pumps, and engines survive at the station. The physical plant and now-unused but operable machinery are a rare example of the development of a municipal waterworks from the late 19th century. December 17, 1982.

See LOUISIANA STATE CAPITOL

Located in a busy port, this Customhouse was a major one. When built, it was second only to the U.S. Capitol in size among American buildings. Its General Business Room is a Greek Revival interior of originality and monumentality. December 2, 1974.

This branch mint is the Nation's oldest unreconstructed mint in its original location. An imposing classical-revival structure with columned portico, of stuccoed river-mud brick with exterior granite trimming. May 15, 1975.

Melrose, Natchitoches Parish
18th-19th centuries

Representative of the Fletcher class destroyers that formed the backbone of U.S. destroyer forces in World War II. Named for Rear Admiral Isaac C. Kidd, Sr., who was killed aboard his flagship, USS Arizona, during the attack on Pearl Harbor. She saw action in the Pacific, and survived a kamikaze attack at Okinawa. January 14, 1986.

Finest surviving example of French colonial public architecture in the U.S. Louis XV in style, formal and symmetrical, with restrained ornament. Constructed for nuns whose mission was to nurse the poor and teach young girls. October 9, 1960.

Known as the "French Quarter," this 85-block area almost coincides with the original city plan, laid out in 1721. Within the District are a distinctive variety of architectural styles. December 21, 1965.

This 1-1/2-story frame house was birthplace, childhood home, and estate of White, Associate and Chief Justice of the Supreme Court (1894-1921). His greatest impact resulted from his "rule of reason" for the enforcement of the Sherman Antitrust Act. December 8, 1976.

Established by a former slave who became a wealthy businesswoman. The African House, a unique structure with an umbrella-like roof, may be of direct African derivation. May 30, 1974.

HAMILTON HOUSE Vaughn's Lane and Old South Road South Berwick, York County 1787-88 Republican Blaine was Speaker of the House of Representatives, twice a Senator, twice Secretary of State, and an unsuccessful Presidential candidate in 1884. He helped establish the Pan-American Union in 1890. January 29, 1964.

A leading 19th-century proponent of Prohibition, Dow was a candidate for the Presidency in 1880 on the Prohibition Party ticket. May 30, 1974.

A defensive outpost during the French and Indian War, the fort was built for protection against Indian raids. The sole remaining structure is the oldest extant example of a log blockhouse in the U.S. November 24, 1968.

Built as a result of the dispute between the U.S. and Great Britain over the Canadian boundary, and abandoned after the signing of the Webster-Ashburton Treaty (1842), which fixed the boundary line. November 7, 1973.

Constructed after settlement of the Maine boundary dispute with Canada. Measures 350 by 280 feet and contains a magazine, barracks, and other outbuildings. December 30, 1970.

Constructed as a supply depot for the British Army, just before the French and Indian War. Supplies were assembled at this base point for American General Benedict Arnold's march on Quebec in 1775. November 7, 1973.

As the first president of Johns Hopkins University (1875-1901), Gilman made graduate education a recognized university responsibility. December 21, 1965.

Only one original building remains of the National Home, which has served disabled veterans for more than a century. May 30, 1974.

Col. Jonathan Hamilton, a merchant, built this 2-1/2-story structure and occupied it until his death in 1802. It is an example of a large New England frame Georgian country house. December 30, 1970.

NICKELS-SORTWELL HOUSE northeast corner, Main and Federal streets Wiscasset, Lincoln County 1807-08 Simple, clapboarded, 2-story frame structure, a little-altered example of a small New England Colonial church. Used as a town meeting hall from 1757 to 1844. November 24, 1968.

Converted stable at the edge of the ocean, used as a studio by an artist particularly noted for his seascapes, landscapes, and Civil War paintings. December 21, 1965.

Built by the widow of Sir William Pepperrell, wealthy businessman and military commander. 2-story frame structure imitates the English High Georgian style. Hipped roof, modillioned cornice, and gabled center pavilion with 2-story Ionic pilasters. October 9, 1960.

Built with thick, protective walls, the house is representative of the vernacular log architecture widely used in New England in the 17th century as a defense against Indians. November 24, 1968.

This 3-story brick townhouse exemplifies the Federal-Adamesque style in New England. Semi-circular entrance portico with Doric pillars and pilasters. Interiors include Adamesque woodwork and a flying staircase. December 30, 1970.

Little-altered example of the Italianate villa style, in a brick and brownstone town house. Interior contains Carrara marble fireplaces and rosewood doors. Built as a summer home by a New Orleans businessman. December 30, 1970.

See GOVERNOR'S HOME ...

A 3-story, L-shaped townhouse in the Adamesque-Federal style. Crowned by a low hip roof, with an elaborate facade that combines Corinthian pilasters, an elliptical fanlight, and a Palladian and a lunette window. December 30, 1970.

YORK GAOL (OLD)

Well preserved and rare example of a substantial colonial prison building. Served as the York County jail beginning ca. 1720, and held prisoners until ca. 1879. Built in 4 phases, including construction of its original stone cell portion around 1720. November 24, 1968.

See GILMAN (DANIEL COIT) SUMMER HOME

See LADY PEPPERRELL HOUSE

Residence (1888-1902) of "Czar Reed," power-ful Republican Speaker of the U.S. House of Representatives who in 1890 reformed House procedures with the "Reed Rules."
May 15, 1975.

The Pulitzer Prize-winning poet grew up in this 2-story white clapboard house and wrote much of his poetry here.
November 11, 1971.

Founded in 1783. Until recently, one of the last of the Shaker communities. A representative collection of Shaker implements and furniture is housed in the buildings. May 30, 1974.

Stowe's widely influential indictment of slavery, <u>Uncle Tom's Cabin</u>, was written here in 1851. December 29, 1962.

Built for a mast agent for the Royal Navy. Has a symmetrical Georgian facade, and a clerestory gambrel roof that is one of only two extant examples of this once fairly common type. Austere exterior and lavish interior trim represent the colonial frontier economy. November 11, 1971.

Henry Wadsworth Longfellow lived here from his birth in 1807 until 1843 and composed several of his best-known poems in this house. December 29, 1962.

DE-DESIGNATED: March 5, 1986. (Originally designated August 29, 1970.)

BOWDITCH (NATHANIEL) HOME North Street Salem, Essex County Early 19th century

BRANDEIS (LOUIS) HOUSE Neck Lane, off Cedar Street Chatham, Barnstable County 20th century This manufacturing complex represents the first truly modern factory in the United States. Employing innovative power looms, it signaled the birth of American industrialization and ended U.S. dependency on British technology. It was the technological basis for a fundamental reorganization of the factory system. December 22, 1977.

From 1800 to 1974 the Boston Naval Shipyard functioned as one of the most important shipyards in the United States. It pioneered in modern ship construction, and for more than a century manufactured most of the Navy's rope. November 13, 1966. (Parts of the shipyard are included in Boston National Historical Park.)

The first public botanical garden in the United States. Adjacent to the Boston Common, it was landscaped during the 1860s and retains its French Second Empire character. It has become a repository of important outdoor sculpture, and is well-known for the Swan Boats that have sailed in its pond since 1877. February 27, 1987.

The first outstanding example of Renaissance Beaux-Arts Classicism in America. Set the precedent for grand-scale urban libraries. Consists of a 3-story, monumental free-standing block in the style of an Italian Renaissance Palace surrounding an open courtyard. February 24, 1986.

Bowditch effected great advances in navigation and helped bring European mathematics to America. January 12, 1965.

Brandeis was appointed to the Supreme Court in 1916 by President Wilson. He often stood with Justice Holmes against the Court majority. November 28, 1972.

PAKACHOAG HILL

PARKMAN (FRANCIS) HOUSE 50 Chestnut Street Boston, Suffolk County 1824 Among the finest examples of High Victorian Gothic ecclesiastical architecture in New England. Two-story masonry building designed in a cruciform plan, and is modeled after North Italian Gothic churches. Gableend windows have elaborate Gothic tracery. December 30, 1970.

This Georgian building was the scene of numerous pre-Revolutionary War protest meetings, one of which preceded the Boston Tea Party (December 16, 1773).

October 9, 1960. (Included in Boston National Historical Park.)

An excellent example of late Georgian architecture, the Old State House served its intended function from 1776 to 1798. From 1830 to 1840, it was the Boston city hall. October 9, 1960. (Included in Boston National Historical Park.)

An early example of a monumentally scaled church in the Federal-Adamesque style, still considered one of Asher Benjamin's finest churches. Became the prototype for many other New England churches through publication of plans in Benjamin's The American Builder's Companion.

December 30, 1970.

Pioneer landscape architect Olmsted developed New York's Central Park, planned some 80 other urban parks, and was involved in numerous preservation projects. May 23, 1963. (Became the Frederick Law Olmsted National Historic Site in 1979.)

Home of Bronson Alcott, American Transcendentalist and educator, and his daughter, author Louisa May Alcott, who wrote part of <u>Little Women</u> while living here. December 29, 1962.

See FIRST HARRISON GRAY OTIS HOUSE

See GODDARD ROCKET LAUNCHING SITE

Historian Parkman was one of several prominent people who lived on Beacon Hill in the 19th century. He occupied this early Federal house during his most productive years. December 29, 1962.

Alger, a minister and the author of the popular rags-to-riches books, spent his summers in this white clapboard parsonage. November 11, 1971.

Houses a collection covering New England maritime history, Pacific ethnology, and the natural history of Essex County. December 21, 1965.

First important example of the architect's work. Interiors illustrate both his early Georgian and later Adamesque styles of decoration. November 24, 1968.

Typical of the many Colonial brick dwellings erected in Boston. One of the few remaining 17th century brick town houses in New England. November 24, 1968.

William H. Prescott did much of his historical writing, notable for its accuracy and thoroughness, while he lived in this house. December 29, 1964.

PT Boats were small, fast, expendable interdiction ships armed with torpedoes and machine guns. American PT Boats served in the Philippines, Southwest Pacific, English Channel, and the Mediterranean Sea cutting enemy supply lines, harassing enemy forces, and performing short range oceanic scouting. PT 796 was used in President Kennedy's Inaugural Parade painted with the number "109," and is the best surviving representative of this class of warship. January 14, 1986.

Putnam was a Revolutionary War officer who helped organize the first settlement in the Northwest Territory, at Marietta, Ohio; he also served as United States Surveyor-General. November 28, 1972.

RUMFORD (COUNT) BIRTHPLACE 90 Elm Street Woburn, Middlesex County 1714

ST. PAUL'S CHURCH 136 Tremont Street Boston, Suffolk County 1819-20; Alexander Parris and Solomon Willard Built by Josiah Quincy, mayor of Boston and later president of Harvard, to replace Faneuil Hall market facilities. One of the most impressive large-scale market complexes built in the U. S. in the first half of the 19th century. The central building uses two major structural innovations of the period: cast-iron columns for interior support and a massive serial post-and lintel system for exterior walls. November 13, 1966.

Howells, author, magazine editor, and influential literary critic at the turn of the century, wrote some of his most famous novels while residing here (1878-c. 1882). November 11, 1971.

Home of the famous silversmith and patriot who on April 18, 1775, warned Patriots along the road to Lexington that "the British are coming." January 20, 1961. Included in Boston National Historical Park.)

Long-time home of the Harvard chemist who won the 1914 Nobel Prize for his work in determining atomic weights and who was considered the foremost experimental chemist of his time. January 7, 1976.

Although originally built in c. 1692, this house was remodelled several times until it represented the Georgian period in the history of New England's domestic architecture. October 9, 1960.

Count Rumford, born Benjamin Thompson, was one of the first native-born Americans to gain international recognition for his contributions to science when, in 1798, he disproved the prevailing caloric theory of the nature of heat. May 15, 1975.

The first church in the Greek Revival style built in New England. A 2-story, gable-roofed sandstone building, with a temple-front portico. Now the cathedral of the Roman Catholic Archdiocese of Boston. December 30, 1970.

STATE HOUSE (OLD)

STORY (JOSEPH) HOUSE 26 Winter Street Salem, Essex County 19th century Reconstruction of a 17th-century iron works that operated intermittently between about 1648 and 1670. Also includes the 17th-century Iron Works House. An important industrial achievement, though not a fianancial success. November 27, 1963. (Now in the National Park System as Saugus Iron Works National Historic Site.)

A Federal-style townhouse built on a monumental scale. The walls of the 2-story structure are composed of carved granite panels. December 30, 1970.

Designed in the well-known Romanesque style of its architect, who attempted to make this structure compatible with existing Georgian and Federal buildings in the Harvard Yard. December 30, 1970.

One of the most formal and imposing Georgian houses in New England, built by William Shirley, a Royal Governor (1741-49, 1753-56). American forces used it as a barracks and hospital during their siege of Boston (1775-76.) October 9, 1960.

Best preserved of the few remaining stone houses built in New England in the 17th and 18th centuries. The walls of the original portion, 2 feet thick, are composed of granite, fieldstone, brick, and plaster. November 24, 1968.

Until 1967-68, this was the U.S. Army's main research and development center and pilot manufactory for small arms. Formally established as a Federal arsenal in 1794. December 19, 1960. (Springfield Armory National Historic Site is in the National National Park System.)

See OLD STATE HOUSE

As a Supreme Court Justice (1811-45), Story supported national supremacy over States rights. His decisions helped consolodate the basis of the American nation. November 7, 1973. SUMNER (CHARLES) HOUSE 20 Hancock Street Boston, Suffolk County

After the Civil War, he was one of the leading figures in the Radical wing of the Republican Party and played an influential role in foreign affairs. November 7, 1973.

See RUMFORD (COUNT) BIRTHPLACE

Home and laboratory of a prolific inventor who was one of the founders of the General Electric Company. January 7, 1976.

Part of the first subway system in North America. The original tunnel section of the system is still in use. January 29, 1964.

One of H.H. Richardson's finest and earliest works, done in the Romanesque style for which he became famous. John La Farge executed the interior murals and some of the stained glass. December 30, 1970.

Home of the noted Black journalist, who was a militant civil rights activist during the first decades of the 20th century. May 11, 1976.

An example of a 17th-century New England brick structure. The bricks used in the house were made in Medford, a leading brick-making center. November 24, 1968.

Considered the finest existing Greek Revival church in New England. The dominant interior feature is the decorative plaster dome. The church is the burial place of Presidents John and John Quincy Adams and their wives. John Quincy was instrumental in its erection. December 30, 1970. (The church is a unit of Adams National Historic Site.)

An oblong granite building, with a hipped roof, a powerful example of a small public building in the Greek Revival style. Symbolic of the era when New Bedford was a major port. December 30, 1970.

VASSALL-CRAIGIE-LONGFELLOW HOUSE

Representative of many <u>Fletcher</u> class destroyers built by the <u>Boston Navy Yard</u> and exemplifies the intense military-industrial effort on the home front during World War II. She earned four battle stars and Navy Unit Commendation at Okinawa. She was the target of the last kamikaze attack of World War II. January 14, 1986.

Known as "Old Ironsides," <u>USS Constitution</u> distinguished herself in the undeclared naval war with France, in sea battles with Barbary pirates, and during the War of 1812. She is a square-rigged wooden frigate, 204 feet long. December 19, 1960. Administered by the U.S. Navy.)

An intact example of the standard fleet type <u>Balao</u>-class submarine that played an important part in World War II. She is believed to have sunk an I-class Japanese submarine and a 100-ton schooner. January 14, 1986.

Representative of the <u>South Dakota</u> class of American battleships, the continued American preparation for World War II, and the development of more advanced battleship design. She was built in Quincy and thus represents Massachusetts' support of the war effort. She saw action in both the European and Pacific theaters beginning in 1942, and earned 11 battle stars for her service. January 14, 1986.

A superb example of Bulfinch's public architecture. A granite-walled, 3-story structure in Harvard Yard, originally used for study, dining, and worship. December 30, 1970.

The finest extant example of a McIntire-designed Adamesque-Federal country house. Designed as a 5-part frame composition, it was enlarged and extensively remodeled in 1882. The house stands in one of the few landscaped estates in New England to survive largely intact from the 18th century. December 30, 1970.

TRUK LAGOON UNDERWATER FLEET, TRUK ATOLL Truk State Caroline Islands 1944-45 The core of the ritual and residential area was the seat of Pohnpei's ruling Sau Deleur dynasty in prehistoric times. Development of the island's "chief" hierarchy, one of the most complex in the in the Pacific islands, can be researched through archeological evidence here, such as the megalithic structures. The site thus provides opportunities for inquiry into the origins of complex societies. September 16, 1985.

In 1942-44, Japan's Combined Fleet operated out of Truk, a formidable advanced naval base. After the Combined Fleet had withdrawn because of the threat of American attack, a U. S. Navy carrier strike on February 17-18, 1944, destroyed virtually all remaining Japanese ships in the lagoon, and heavily damaged Japanese air and land defenses. February 4, 1985.

MIDWAY ISLANDS (1)

WORLD WAR II FACILITIES AT MIDWAY Midway Islands 1941-42 The Japanese launched an attempt to capture these islands in June 1942. American forces, ordered by Admiral Nimitz to intercept the Japanese attack, struck back after the Japanese fleet had begun its attack. The Japanese navy never fully recovered from the American victory in this battle, and it restored American naval power in the Pacific. This battle proved to be the turning point of the Pacific theater of World War II. May 28, 1987.

See OAKLAND MEMORIAL CHAPEL

A spacious red brick house with an irregular floor plan, a prime example of the work of Calvert Vaux, who was an important residential architect. May 30, 1974.

Situated in an extensive park setting of live oaks and azaleas. Epitomizes the architectural qualities for which Natchez is famous. May 30, 1974.

Auburn's 2-story portico became a model for Natchez houses. It has been used frequently as a prototype for Southern plantation houses. May 30, 1974.

Davis, president of the Confederacy, lived here during the last 12 years of his life (1877-91). He completed his book on the rise and fall of the Confederacy here. November 7, 1973.

The Civil War battle at Champion Hill was a crucial Union victory in the 1863 Vicksburg campaign. In this battle, Gen. Ulysses S. Grant's Union Army forced the retreat of Gen. John C. Pemberton's Confederate forces into the defenses of Vicksburg (May 16, 1863). The siege of Vicksburg followed, and on July 4, 1863, the Confederates surrendered the city and its 29,500-man garrison. May 5, 1977.

These buildings illustrate two facets of the Greek Revival style, in the Ionic temple of the bank facade and the Doric columns of the residence. May 30, 1974.

See HOUSE ON ELLICOTT'S HILL

See BEAUVOIR

Only remaining example in Mississippi of a full peripteral colonnaded plantation house. Ornamental iron balustrades enclose the galleries. December 2, 1974.

LONGWOOD 1.5 miles southeast of Natchez Adams County 1860-62; Samuel Sloan Faulkner, Nobel Prize-winning author, occupied this Greek Revival house from 1930 until his death in 1962. May 23, 1968.

See MISSISSIPPI GOVERNOR'S MANSION

Remnants of three temple mounds and a plaza remain here at the documented site of the Grand Village of the Natchez, mentioned in early 18th-century sources. Numerous native and European grave goods were found in the temple on one of the mounds. July 19, 1964.

This wooden carousel is likely the oldest of the three earliest Dentzel menagerie carousels that are virtually intact, out of more than 100 built by the company. Is the only one of the three still in an historic "shelter" or carousel house. Built from a Dentzel blueprint, the carousel house is a rare survivor. February 27, 1987.

Type site for Lake George phase of the Mississippian or Temple Mound culture. July 19, 1964.

Among the earliest houses built after the Spanish laid out a new town on the Natchez bluff, this house reflects the architectural tastes of the early years of the Mississippi Territory. Its floor plan is one usually associated with Louisiana. May 30, 1974.

Lamar served in the U.S. House of Representatives before and after the Civil War. During the war, he served the Confederacy as a soldier and a diplomat. Afterward, he was a leading Southern spokesman for reconciliation during Reconstruction. Exponent of Southern industrial progress and leader of the "New South" movement, late in his career he served in the U.S. Senate, as Secretary of the Interior, and on the Supreme Court. May 15, 1975.

Built for Haller Nutt and known as "Nutt's Folly," it is the largest and most elaborate octagonal house in the U.S. Eclectic decorative detail includes both Italianate and Moslem motifs. December 16, 1969.

ROWAN OAK

STANTON HALL High Street Natchez, Adams County 1851-57 Remarkable for the perfection of its Greek Revival design and the integrity of its surroundings. May 30, 1974.

Important representative of houses built as governors' mansions in the U. S., second in age only to that in Virginia among those still serving their original function, and the most distinguished of the four oldest continuously used governor's mansions. A monumental brick structure of Greek Revival design. April 24, 1975.

Home of Isaiah Thornton Montgomery, who in 1887 founded the town of Mound Bayou as a community where Black Americans could obtain social, political, and economic rights in a State then dominated by White supremacists. May 11, 1976.

Oldest and most venerable building on the university campus, Oakland Chapel symbolizes the importance of Alcorn as the first Black land grant college in the United States. Originally built for Oakland College, the chapel became part of Alcorn when the State established the university in 1871. May 11, 1976.

See WARREN COUNTY COURTHOUSE

Headquarters of Confederate Gen. John C. Pemberton during most of the siege of Vicksburg, and the place where the fateful decision to surrender the city was made.

December 8, 1976.

Built in 1965 to support the mission of the National Space Technology Laboratories as the national rocket test range for flight-certifying large rocket propulsion systems. Important for its role in testing of stages of the Saturn V rocket, which was crucial to the effort to put astronauts on the moon. October 3, 1985.

The tallest monument in the United States at 630 feet in height. Its complex and subtle design based on a weighted catenary is unique in architecture and its structural system had never been attempted on such a large scale. Although designed in 1947 and not built until between 1963 and 1968, its symbolic architectural expression is of such simplicity that it remains modern. May 28, 1987.

Last remaining example of the modern era of showboats that ended in the 1920s. Largest and most elaborately decorated of the showboats. December 24, 1967

First site showing development of Eastern Archaic cultures within the Paleo-Indian time range. January 20, 1961.

The only surviving residence of Scott Joplin, the king of ragtime and one of the most creative popular musicians of the late 19th and early 20th centuries. December 8, 1976.

Oldest functioning botanical garden in the United States, long famous for the quality of its displays and for the high quality of its botanical and horticultural research. December 8, 1976.

From the 1920s to the 1940s this building was the home of American Federation of Musicians Local 627, whose members created the Kansas City style of American jazz. The membership of the local has included such jazz greats as "Count" Basie, Hershel Evans, Lester Young, and Charlie "Bird" Parker. December 21, 1981.

The Patee House was one of the best-known hotels west of the Mississippi in the mid-19th century. It also served as the eastern terminus of the Pony Express. November 5, 1961.

WESTMINSTER COLLEGE GYMNASIUM Fulton, Callaway County 1928-29 One of two surviving examples of 6 monumentally scaled Federal buildings in the French Second Empire style designed by the Supervisin Architect of the U.S. Treasury in the post Civil-War era. Now-rare representative of a style important in Federally sponsored architecture of the period. December 30, 1970.

An example of an Admirable class fleet minesweeper during World War II. They formed the largest class of American minesweepers and proved to be the most successful. Were fitted for both wire and acoustic sweeping and could double as antisubmarine warfare and anti-aircraft ships. Were also used as patrol and escort vessels. January 14, 1986.

Believed to have been the principal settlement of the Missouri Indians. Pere Marquette's 1673 map placed "Messourit" Indians here. July 19, 1964.

A highly influential prototype of the modern office building. Sullivan's first commission involving use of complete iron and steel framing. May 23, 1968.

Associated with the Louisiana Purchase Exposition, held in 1904, and the third in the modern series of Olympic Games held in conjunction with the Exposition. The Exposition was the largest in area and scope of World's Fairs up to that date. The early buildings here, although not specifically designed as exposition structures, are the largest extant group from the heyday of World's Fairs. February 27, 1987.

One of the best-preserved examples of a mid-19th-century woolen mill. Its business records and rare textile machinery have also survived. November 13, 1966.

Winston Churchill introduced the term "Iron Curtain" in a speech here in 1946.
May 2, 1968.

NEWLANDS (FRANCIS G.) HOME 7 Elm Court Reno, Washoe County 1889

VIRGINIA CITY HISTORIC DISTRICT Virginia City, Storey County 1860 Protected the first transcontinental telegraph lines and served as the head-quarters for Nevada military posts. November 5, 1961.

An important station on the Pony Express and Central Overland Stage Line from 1859 to 1869. November 5, 1961.

Among the largest and earliest of the Bureau of Reclamation's massive multiple-purpose dams. Distinguished by its size, the size of its hydro-electric plant, and its impact on the agricultural, industrial, and urban development of the Southwestern U. S. August 20, 1985. (Also in Arizona)

This site has provided information regarding early Indian occupation in the Great Basin. January 20, 1961.

Democrat Newlands, a strong supporter of Federal irrigation programs, owned this large frame house from 1889 until his death in 1917. He served in the U.S. House (1893-1903) and Senate (1903-17). May 23, 1963.

A prototype for frontier mining boom towns, Virginia City owes its existence to the discovery of the Comstock Lode in 1859. Still has the atmosphere and appearance of a boom town. July 4, 1961.

Nicholas Gilman, who was born in this house, was a delegate to the Constitutional Convention and later served in the U.S. House and Senate. December 2, 1974.

Langdon's career in New Hampshire politics spanned more than 40 years. He was a delegate to the Constitutional Convention and the first President pro tem of the United States Senate. His mansion is one of the great Georgian mansions in America. December 2, 1974.

Edward MacDowell, one of the first Americans to be recognized as a composer of serious music, lived and worked here. Now a retreat for writers, composers, and painters. December 29, 1962.

This brick house exemplifies the large early Georgian-style houses once popular in the New England Colonies. October 9, 1960.

Built by ship carpenters as a wedding gift for a wealthy merchant's son. Late Georgian, square, 3-storied clapboard house. November 24, 1968.

This was the largest spa in the White Mountains when it opened. Built in Spanish-Renaissance style, it is a large wooden frame, Y-shaped structure with two 5-story octagonal towers. Was the location of the 1944 Bretton Woods Conference, an international gathering of economists, lawyers, and politicians to chart a blueprint for the world's monetary system. The World Bank was established at this Conference.

June 24, 1986.

Franklin Pierce, 14th President of the United States, lived in this house from infancy until his marriage in 1834. July 4, 1961.

The home (called "Aspet"), gardens, and studios of one of America's most eminent sculptors, who moved into the house in 1885 and spent many of his most productive years here. June 13, 1962. (Now within the National Park System as the Saint-Gaudens National Historic Site.)

BOTTO (PIETRO AND MARIA) HOUSE 83 Norwood Street Haledon, Passaic County 1908

BOXWOOD HALL (Boudinot Mansion) 1073 E. Jersey Street Elizabeth, Union County c. 1750

BURLINGTON COUNTY PRISON High Street Mt. Holly, Burlington County 1810; Robert Mills The largest known Middle Woodland village archeological site in the coastal Mid-Atlantic/New England region. Interpretation of data from Abbott Farm became the focal point of a famous forty-year controversy about the antiquity of human occupation of the New World. December 8, 1976.

The remaining edifice that best recalls the city's historic heydey as a seaside resort. Is the largest structure on the Boardwalk and is significant in the history of large-span structures, containing, when it was built, the largest room with an unobstructed view and the largest pipe organ in the world. Is also the scene of one of America's greatest pageants, the Miss America Contest. February 27, 1987.

One of the very few completely documented 19th-century "palaces," it vividly evokes a picture of Victorian life of the wealthy. Built for a member of the Ballantine family, whose brewery in Newark was highly successful. Now incorporated into the Newark Museum of Art, with minor alterations. February 4, 1985.

From the balcony of this 2-story rectangular block stone house, leaders of the Industrial Workers of the World (IWW, the "Wobblies") rallied workers during the Paterson Silk Strike (1913), a salient event in the American labor movement. December 17, 1982.

Elias Boudinot, President of the Continental Congress (1782), purchased Boxwood Hall in 1772 and owned it until 1795. In that year, he sold it to Jonathan Dayton, the youngest signer of the Constitution, who was then Speaker of the U.S. House of Representatives. Dayton resided here until his death in 1824. November 28, 1972.

This modest county prison was designed and constructed after plans embodying the most modern correctional methods prevalent in the early years of the 19th century. Its heavy stone walls were also an early attempt at fireproofing a building. It served the community until 1966, the oldest prison in continuous use at that time. June 24, 1986.

FORTUNE (T. THOMAS) HOUSE 94 W. Bergen Place Red Bank, Monmouth County 1860-85 One of the largest extant collections of late 19th-century frame buildings in the U.S. In its more than 600 seashore houses and hotels is a almost complete showcase of late Victorian architecture, with many buildings in eclectic and vernacular versions of traditional formal styles. May 11, 1976.

The district includes most of the principal mill buildings used by the company in the late 19th century, when the Clark Co. devloped into the world's foremost maker of cotton sewing thread. June 2, 1978.

President of the United States (1885-89; 1893-97) Cleveland retired to this stucco-covered stone house at the end of his second term. He resided here until his death in 1908. June 23, 1965.

Einstein's home during his residence at Princeton. He lived here from 1936 until his death in 1955. Einstein is best remembered for his achievements in three theoretical directions: the special theory of relativity, the general theory of relativity, and unified field theory. January 7, 1976.

Samuel F. B. Morse developed and successfully demonstrated the telegraph in the Vail Factory in 1838. The Village is the site of a 19th century ironworks complex, including the Vail Homestead, Factory, and outbuildings. May 30, 1974.

Contains about 110 historic buildings and 16 coastal defense batteries dating from c. 1875-1950. The district reflects the history of a vital defense installation guarding New York City and its harbor. The Proving Ground played a key role in the development of coastal and field artillery, as well as radar. December 17, 1982. (A unit in Gateway National Recreation Area since 1974.)

From 1901 to 1915 the home of the crusading Black journalist, who articulated the cause of Black rights in his newspapers at the turn of the 20th century. December 8, 1976.

See BALLANTINE HOUSE

An important site in the history of the Gothic-Revival style in America. The first attempt in this county to follow a specific English medieval church model for which measured drawings existed. Its design and construction were a milestone in the career of its 19th century architect, firmly establishing him as the foremost practitioner of the Gothic style in the United States. June 24, 1986.

Only surviving barracks of five erected by New Jersey's Colonial legislature to house troops during the French and Indian War. November 28, 1972.

Designed in the Federal style, this is the first college building at Rutgers. May 11, 1976.

Represents a joint effort by New York and New Jersey to preserve the scenic beauty of the cliffs on the western side of the Hudson River. January 12, 1965.

Official residence of Princeton's presidents from 1756 until 1879. Early occupant John Witherspoon was a delegate to the Continental Congress and a signer of the Declaration of Independence.

July 17, 1971.

Washington's victory here helped raise the morale of the colonists at a time when the Continental Army had suffered a series of defeats. Now a State park.

January 20, 1961.

Woodrow Wilson lived at Prospect from 1902 into 1911, a period significant both for his presidency of Princeton University and the beginning of his political career. Built in the Tuscan villa style. February 4, 1985.

SAN GABRIEL DE YUNGUE-OUINGE 4 miles north of Espanola Rio Arriba County c. 1599 Pueblo and mission here help to document the early period of Pueblo-Spanish contact. As the ecclesiastical headquarters of the Inquisition in New Mexico, they also played an important role in the controversies between church and state of the 1600s. June 13, 1962. (Part of Salinas National Historic Site.)

Double-peaked hills rising above level plains. Major landmark for travelers on the Cimarron Cutoff of the Santa Fe Trail. The Landmark includes several other historic sites and camps along a section of the Trail which has few modern intrusions. May 23, 1963.

Because the branch of the Santa Fe Trail through Raton Pass was longer and more rugged than the Cimarron Cutoff, the Cutoff had become "the" Santa Fe Trail by the time of the Mexican-American War. From 1861 to 1865 traffic through the Pass increased, as Confederate raiders and the threat of attack by some Southern Plains Indians halted traffic over the Cimarron Cutoff. December 19, 1960.

Excavations here have yielded information on three distinct prehistoric groups. Represents one of the earliest known occupations of the Americas. Situated in the Cibola National Forest. January 20, 1961.

Large, impressive example of the Spanish Colonial mission church in New Mexico, blending European plan and general form with Pueblo construction and decorative detail Located at the Acoma Pueblo. April 15, 1970.

Large and excellent example of the New Mexican Spanish Colonial church. Stuccoed adobe, built with exceptionally massive walls. April 15, 1970.

Ruins mark the site of the first Spanishbuilt capital of New Mexico, established at a Tewa Pueblo which the Spanish took over. The capital was removed to Santa Fe in 1610. July 19, 1964. SAN JOSE DE GRACIA CHURCH North side of the Plaza Las Trampas, Taos County 1760-76

WATROUS (LA JUNTA)
Watrous, Mora County
1843

One of the best-preserved and most representative examples of the Spanish Colonial churches in New Mexico. Interior decoration includes paintings on carved wooden reredos and sidewalls and under the balcony. April 15, 1970.

Two pueblos at this site represent the largest ruin in the Galisteo Basin. One is prehistoric, the other historic. The ruins this offer opportunities for research into the development and history of Puebloan peoples in the Galisteo Basin. July 19, 1964.

Historically the city's commercial and social center and the terminus of the Santa Fe Trail. The Palace of the Governors, on the Plaza, was the site of a flag-raising in 1846 establishing American rule. December 19, 1960.

The Village grew up around the 45-room "castle" built by Ernest Seton, a conservationist active in the Boy Scout movement. December 21, 1965.

The Pueblo was a center of resistance to Spanish rule in the 17th century. One of the most traditional of the Eastern Pueblos, Taos has borrowed from Anglo- and Spanish-American cultures over centuries of contact, while retaining its cultural integrity and identity as a community. October 9, 1960.

World's first nuclear device was exploded here in mid-July 1945. Now part of the White Sands Missile Range. December 21, 1965.

Westernmost great landmark of the high Plains section of the Cimarron Cutoff of the Santa Fe Trail. Wagon Mound served as a guidepost for caravans moving westward. May 23, 1963.

Point at which the Mountain and Cimarron Cutoff routes of the Santa Fe Trail divided. Wagon trains organized here before entering hostile Indian territory. May 23, 1963.

New Mexico

WHITE SANDS V-2 LAUNCHING SITE LAUNCH COMPLEX 33 White Sands Missile Range Dona Ana County 1945-46; U. S. Army

ZUNI-CIBOLA COMPLEX
Valencia County
Late Prehistoric to 1539

Closely associated with the V-2, the origins of the American rocket program, and the leadership of Dr. Werner von Braun. The V-2 Gantry Crane and Army Blockhouse here represent the first generation of rocket testing facilities that would lead to U.S exploration of space. October 3, 1985.

A series of sites on the Zuni Reservation, containing house ruins, kivas, pictographs, petroglyphs, trash mounds, and a mission church and convent. They have proven to be an important source of material for ethnological studies of the early Zuni, Mogollon, and Anasazi cultures. They include the Village of the Great Kivas, Yellow House, Hawikuh, and Kechipbowa. December 2, 1974.

The only surviving structure from the popular Pan-American Exposition of 1901, which hoped to encourage economic ties between North and South America after the Spanish-American War. The classic, white marble building was built as the New York State Building for the Exposition and has been used by the Buffalo and Erie County Historical Society since 1902. Is a major, unaltered example of the work of the Beaux-Arts architect, George Cary. February 27, 1987.

An important transitional building in the developing style of H.H. Richardson, and is the first major work on which he collaboarated with Frederick Law Olmsted and his partner, Calvert Vaux, who sited and landscaped the property. Is also significant in the history of treatment for the mentally ill as its plan followed the system developed by Dr. Thomas Kirkbride, one of the first physicians to treat insanity as an illness. June 24, 1986.

Home of the distinguished Afro-American diplomat and scholar who served as Undersecretary-General of the United Nations and who received the Nobel Peace Prize for his 1949 contributions to peace in the Middle East. May 11, 1976.

LYNDHURST

McKAY (CLAUDE) RESIDENCE 180 W. 135th Street New York City 1931 Built by an early settler on the Hudson River, this structure was in an area of key importance during the Revolution. It was occupied on four occasions by Maj. Gen. Henry Knox. November 28, 1972.

See ROCKEFELLER ESTATE

See PLATTSBURGH BAY

Begun as a small resort for family and friends by the Smiley brothers, it became so popular that it was enlarged many times. The resulting building is today a hodge-podge of roofs, walls, chimneys, and balconies producing a picturesque silhouette against a glacial mountain lake. The importance of natural conservation to the Smileys is also evident in the hotel and its surroundings. June 24, 1986.

Site provided first clear evidence of an Archaic hunting and gathering culture in the Northeastern United States.
January 20, 1961.

From 1919 to 1957 the home of the distinguished General Electric chemist and inventor, winner of the 1934 Nobel Prize in chemistry for his work in surface kinetics. January 7, 1976.

Home of the 8th president for 21 years, until his death in 1862. July 4, 1961. (Now in the National Park System as Martin Van Buren National Historic Site.)

See MORSE (SAMUEL F. B.) HOUSE

Constructed by the P. Lorillard Company, the Lorillard Snuff Mill is the Nation's oldest extant tobacco factory and a symbol of the importance of tobacco in the development of commerce and industry in the 19th century. December 22, 1977.

See GOULD ESTATE

From 1941 to 1946 the residence of the Black poet and writer often called the "Father of the Harlem Renaissance." December 8, 1976.

MILLS (FLORENCE) HOUSE 220 W. 135th Street New York City 1886 Long the world's largest department store under one roof. The story of Macy's is a major chapter in American retail history. June 2, 1978.

This house is one of the finest remaining examples of Frank Lloyd Wright's work. There is spacial unity with an interior and exterior that flow together and the structure is compatible with its surroundings. Uses the T-shaped open ground plan 30 years before it became popular. February 24, 1986.

See OLD MERCHANT'S HOUSE

Symbol of an influential company, this building, when constructed, was the world's tallest masonry and steel structure. June 2, 1978.

Extending over four city blocks on the East side of Central Park, it is one of the most monumental of all New York public buildings, and one of the most prestigious museums in the world for its imposing building and the quality of its collections. Although its component parts were designed by eminent architects in diverse architectural styles, they are well-related in scale to each other. Most significant architecturally is the dramatic Fifth Avenue facade and Great Hall designed by Hunt. June 24, 1986.

The Chautauqua Institution flourished in the last quarter of the 19th century, contributing to the democratization of education through summer programs, and expanding include a home study program and a press. Miller, a co-founder, lived for many years, and entertained prominent visitors, in his Swiss chalet-style cottage. December 21, 1965.

See STEEPLETOP

Home of the popular Black singer who in the 1920s achieved stardom on Broadway and in Europe, thus becoming a symbol of success for Black Americans. December 8, 1976.

OLD HOUSE, THE New York 25 Cutchogue, Suffolk County 1649 Headquarters of the nation's largest securities market. June 2, 1978.

The home of America's oldest and foremost yachting organization. Was established as a private man's club and is renowned as the long-time home of the America's Cup. Is a brilliant example of the Neo-Baroque style and today is still highly evocative of the Gilded Age in America and of the Beaux-Arts architecture of that era. May 28, 1987.

Scene of a battle between Maj. Gen. John Sullivan and a combined force of Mohawk Indians and British and Tory soldiers. November 28, 1972.

Provides a view of the Falls from a non-commercial area. Includes an observation tower and paths. May 23, 1963.

Representative of John Ruskin's High Victorian Gothic Style which was popular from the early 1860s until the 1870s. With an open interior, it is essentially a stone cylinder supporting a cast-iron drum and dome between 94 and 100 feet in diameter. It was to be the focal point of the symmetrical buildings of Union College, founded in 1795, one of the oldest "planned" schools in the Nation. June 24, 1986

See CHURCH HOUSE

One of the longest single-span wooden covered bridges in the world (232 feet). In use until 1932. January 29, 1964.

A strategic location made control of the fort important to France, Great Britain, and the Iroquois Confederation, as well as, later, to the United States. October 9, 1960.

Example of English Colonial domestic architecture. Construction details reflect the work of a master builder. November 5, 1961.

OWL'S NEST (Edward Eggleston Estate) New York 9L, Lake George Joshua's Rock, Warren County Late 19th century Is one of the earliest and most successful expressions of the Second Empire style in the United States, and one of the few remaining grand-scale examples of the style. It was the original building for Vassar College, one of the first colleges for the education of women in the United States offering the same education available to men at Yale and Harvard. June 24, 1986.

Owned by a prosperous urban merchant, this 3-story brick townhouse is representative of the transition from the Federal to the Greek Revival period in architecture. June 23, 1965.

The Old New York County Courthouse symbolizes a classic episode in the annals of American graft and corruption. It is a monument to the machinations of William Marcy ("Boss") Tweed, who pocketed \$9 million from its construction.

May 11, 1976.

Only surviving example in New York of a typical 17th-century ecclesiastical frame building. Proportions and framing system are prime examples of the survival of medieval techniques. Used continuously as a meeting house since 1696, except for a period of use as a prison and hospital by the British during the Revolution. December 24, 1967.

Oneida (founded 1848) was a 19th-century communitarian experiment, which flourished until 1879. This large brick mansion is essentially unchanged. June 23, 1965.

Site of battle between American militiamen attempting to relieve Fort Stanwix and a combined force of British Loyalists and Indians. November 23, 1962.

Eggleston, one of America's earliest realistic novelists, built first a library and then a stone house on this estate. He died here in 1902. November 11, 1971.

May 11, 1976.

See FOUNDER'S HALL

Secretary of War (1899-1903) under Presidents McKinley and Theodore Roosevelt, and Secretary of State (1905-1909) under Theodore Roosevelt, Root bought this Federal-style house in 1893. He considered it his permanent home throughout his Government service, and he died in Clinton in 1937. November 28, 1972.

One of the finest examples of the Greek Revival Style in the United States. Built on a monumental scale, it is typical of the first half of the 19th century in America and the prosperity of Western New York as a result of the Erie Canal. A later owner made the farm a model of tile drainage and successful scientific agriculture. June 24, 1986.

An Arts and Crafts movement community founded by Elbert Hubbard in 1895 as an artistic revolt against the mass production of applied arts. The theory was that in its Medieval Craft Guild setting, craftsmen could live and work, making beautiful objects by hand. They produced fine hand painted and bound books, paintings, carvings, metalwork, and ceramics. February 24, 1986.

This large Greek Revival complex was a retirement home for aged sailors. A rare surviving example of urban planning, landscaping, and buildings in the Greek Revival style, unequaled in the U.S. for scale, extent, and quality. December 8, 1976.

Home church of Harry Thacker Burleigh, Black composer, arranger, and singer who helped establish the Spiritual as an integral part of American culture. December 8, 1976. SAINT PATRICK'S CATHEDRAL

Occupied today by the National Arts Club, this important Victorian-Gothic building was the residence (c. 1860-c. 1885) of the central figure in the disputed Tilden-Hayes Presidential election (1876). An outstanding reformer, Tilden exposed the Tweed and Canal Rings. May 11, 1976.

The oldest Episcopal parish in New York City. Alexander Hamilton, Robert Fulton, and William Bradford are buried in the graveyard. December 8, 1976.

Tubman (1821-1913), the most famous "conductor" on the Underground Railroad, personally led more than 300 slaves to freedom. She established this home for aged and indigent Blacks in 1908. May 30, 1974.

Outstanding example of the use of Beaux-Arts elements in a government structure, and one of Cass Gilbert's finest buildings. Embellished with sculpture by Daniel Chester French and murals by Reginald Marsh. December 8, 1976.

Training center for Army officers since 1802. Benedict Arnold commanded the post here during the Revolutionary War and attempted to betray it to the British. December 19, 1960.

The third Essex class aircraft carrier built by the United States. Representative of the Essex class that formed the core of fast carrier task forces in the Pacific. Fought in the Battle of Leyte Gulf in 1944, the largest naval battle in history, and received five battle stars for her World War II service. January 14, 1986.

Representative of the <u>Fletcher</u> class destroyer that was the backbone of U.S. destroyer forces in World War II. She was named after the five Sullivan brothers who were killed when USS <u>Juneau</u> was lost in action in mid-November 1942. She earned 9 battle stars for her service in intense combat in the Pacific from 1943 to 1945. January 14, 1986.

YELLOW TAVERN

Ceremonial center for a group of people with a Mississippian-influenced culture who had moved northward into the area. July 19, 1964.

Workshop studio of Thomas Day, early 19th-century free Black cabinetmaker who achieved recognition for the superior quality of his craftsmanship.
May 15, 1975.

The world's first turreted ironclad, she demonstrated the practicality and capability of this design in her famous 1862 Civil War battle against the Confederate ironclad, <u>Virginia</u>. The public's favorable sentiments that she was the "ship that saved the Union" also helped to influence the creation of many more ships ships of her type. She lies under 220 feet of water off the coast.

June 23, 1986.

Was the first modern American battleship built after World War I. Set a standard for new shipbuilding technology that combined high speeds with powerful armament. Her superior performance during the Battle of the Eastern Solomons in August 1942 established the primary role of the fast battleship as the protector of the aircraft carrier. She has the best war record of any surviving American battleship serving in the Pacific during World War II, and she earned 15 battle stars for her service. January 14, 1986.

Wolfe, a major American novelist, used his boyhood experiences in this rambling frame house in his novels, the first of which was Look Homeward, Angel. Wolfe's mother bought the house in 1906, and he lived here until 1916. November 11, 1971.

TAFT MUSEUM

TYTUS (JOHN B.) HOUSE 300 S. Main Street Middletown, Butler County 1868 Earthen snake effigy site, probably dating from the Adena period. One of the first areas in the United States to be set aside because of its archeological value. July 19, 1964.

Senior Republican Senator John Sherman wrote the Sherman Anti-Trust Act (1890), the first attempt by the Federal Government to regulate industry. He also served in the U.S. House and as Secretary of the Treasury and Secretary of State. His older brother, William Tecumseh Sherman, Union Army General, was also born here. January 29, 1964.

Significant in the development of the Centaur Rocket. The Centaur upper stage rocket has launched some of America's most important space probes. This facility enabled engineers to hot-fire full-scale Centaur engines in simulated space conditions. October 3, 1985.

Maintained as a memorial to Hayes, who was President from 1877 to 1881, and his wife, who are buried here. A library and museum in a separate structure preserve family memorabilia. January 29, 1964.

From 1915 to 1955 Stan Hywet Hall was the home of Frank A. Seiberling, founder of Goodyear Tire and Rubber Company and the Seiberling Rubber Company. He was, like Harvey Firestone and B.F. Goodrich, a titan in the American rubber industry. December 21, 1981.

Birthplace and boyhood home of the 27th President of the United States, a distinguished jurist who also served as Chief Justice of the U. S. Supreme Court.

January 29, 1964. (Now within the National Park System as the William Howard Taft National Historic Site.)

See BAUM-TAFT HOUSE

Lifelong home of the inventor of a practical hot, wide-strip, continuous steel-rolling process, which contributed significantly to the growth of the steel industry. May 11, 1976.

FORKS OF THE OHIO
Pittsburgh, Allegheny County
18th-19th centuries

At the time of the Whiskey Rebellion (1794), this 2-1/2-story fieldstone home was owned by a local official, David Espy. Espy made it available for the temporary use of President Washington, who had accompanied the militia army that later suppressed the rebels. This structure is also the only extant property associated with Revolutionary War (and U.S. Army) Gen. Arthur St. Clair. July 28, 1983.

The first municipal water works to use paddle wheels to pump water and the first to replace them with turbine engines. The sculpture of William Rush enhances the architecturally distinguished buildings. May 11, 1976.

Sometimes called "the most famous modern house," it is one of the architect's masterworks. May 11, 1976.

The proposal to charter this institution provoked the first great debate over strict as opposed to expansive interpretation of the Constitution. The Congress and President Washington, by following Alexander Hamilton's proposal and chartering the bank, took the necessary first steps toward implementing a sound national fiscal policy. May 4, 1987. (Included in Independence National Historical Park.)

Three sites associated with Henry Chapman Mercer, antiquarian, designer of Arts-and-Crafts ceramics, and a visionary architect who was one of the first designers to work with reinforced concrete as a building material. February 4, 1985.

The junction of the Allegheny and Monongahela Rivers and strategic key to the Ohio Valley. The French erected Fort Duquesne here in 1754. The British replaced it with Fort Pitt in 1758. The spot now forms Point Park, and the site Ft. Pitt has been excavated. October 9, 1960.

Founded in 1855, the second oldest cricket club in the United States. Its part in the sport of cricket was of international rank in the 19th century. Early in the 20th century, tennis gained prominence over cricket at the club. The most noted member was William T. ("Big Bill") Tilden, an international tennis star of the 1920s. February 27, 1987.

See FOUNDER'S HALL

An example of a 1-room deep, 2-1/2-story colonial building with rich Georgian interiors. Built as a malt house. October 9, 1960.

See BUCK HOUSE

See PINCHOT HOUSE

An American "castle" that typifies the architectural complexes built for families of great wealth at the turn of the century, symbolizing their social aspirations. First major commission of Horace Trumbauer, a successful architect of European-revival styles. Today it is Beaver College. February 4, 1985.

The family-owned Gruber Wagon Works produced both standard farm wagons and custom vehicles from 1882 to the 1950s. Its fully preserved machinery, tools, and materials make the works an outstanding example of what was once an essential American industry. In Tulpehocken Creek Park. December 22, 1977.

The Harmony Society, 300 followers of George Rapp, established a utopian settlement here in 1805. It developed into a prosperous agricultural and manufacturing community, which was sold when the Society decided to move to Indiana in search of more fertile land. May 30, 1974.

Home (1870-1911) of a Black writer and social activist who participated in the abolitionist, Black rights, women's suffrage, and temperance movements. December 8, 1976.

KENNYWOOD PARK 4800 Kennywood Boulevard West Mifflin, Allegheny County 1898-99; George S. Davidson The Harrisburg trainshed is one of the earliest extant examples of the Fink roof truss, a form of major significance in the history of American industrial building. December 8, 1976.

The residence, from 1908 to 1945, of Milton S. Hershey, originator of the "Hershey Bar." During that period his company became the world's largest manufacturer of chocolate. May 4, 1983.

Home of Philip Syng Physick, late 18th—and early 19th—century Philadelphia physician who has been called the "father of American surgery." Physick lived here from about 1815 until his death in 1837. January 7, 1976.

First small watershed development in the country. Undertaken on privately owned farmland to promote soil, water, and wildlife conservation. August 4, 1969.

A notable example of unusual railroad engineering construction. Joined the eastern and western divisions of the Pennsylvania Railroad. November 13, 1966.

Hospital for the mentally ill, operated on the premise that insanity should be treated as an illness. Influenced similar institutions throughout America. June 23, 1965.

Home of the oldest capital stock insurance company in America. INA pioneered many forms of insurance, in particular marine underwriting. June 2, 1978.

The best preserved survivor of the "trolley park" era when street railway companies built suburban amusement parks linked to center cities by trolley. Has been called the "Roller Coaster Capital of the World" and "America's greatest traditional amusement park." Retains rare, exceptional, and highly representative historic amusements.
February 27, 1987.

NEWPORT HISTORIC DISTRICT Newport, Newport County 18th century

OCEAN DRIVE HISTORIC DISTRICT Newport Newport County 18th century—early 20th century An excellent example of an Early Georgian frame residence. A large 2-1/2 story house with balustraded gambrel roof and heavy stud construction. Presumably built for Deputy Royal Governor Jonathan Nichols, Jr. November 24, 1968.

Brick residence of 3-1/2 stories, with a balustraded roof. A magnificent example of a large brick city house designed in the Adamesque-Federal style.

December 30, 1970.

An early, excellent, and little-altered example of a monumentally scaled residence in the Italian Villa style of architecture of the mid-19th century. Typical of that style in its asymmetrical massing. December 30, 1970.

A beautifully preserved Italian Villa built for the man who was Governor of Rhode Island in 1875-76. May 11, 1976.

See ORIGINAL U.S. NAVAL WAR COLLEGE

America's answer to Wimbledon, and since the rebuilding of Wimbledon, the premier historical place in lawn tennis worldwide. Epitomizes the historical transformation of tennis from an aristocratic pursuit to a more democratized sport in the 20th century. Is also a classic illustration of the Shingle style of architecture. Today it houses the International Tennis Hall of Fame. February 27, 1987.

The district's Georgian public buildings and mansions are among the most advanced in style of any erected in the Colonies. Rows of small dwellings and shops, largely near the waterfront, also give the area architectural distinction. November 24, 1968.

Includes early farms and elaborate summer homes. Natural landscapes and the landscape designs of the Olmsteds co-exist in this district, favored by 19th-century industrial magnates and the social elite. May 11, 1976.

Samuel Slater founded the cotton textile manufacturing industry in the United States after serving as a mill apprentice in England. His mill is operated as a museum. November 13, 1966.

Probably the finest, least-altered example of an Early Georgian public building in the U.S. A brick building with a 2-story octagonal cupola, built to house the Rhode Island General Assembly. October 9, 1960.

Established in 1884 to offer advanced courses for naval officers. Alfred T. Mahan, a key architect of America's naval policy, became president of the College in 1886. January 29, 1964.

See ARCADE

Outgrowth of an 18th-century philosophical society. One of the oldest library buildings in continuous use in the United States. October 9, 1960.

A fine example of the architectural transition from the 17th to the 18th century in New England. Oldest known 3-story upright structure in Rhode Island, and perhaps the earliest wooden structure of its form extant in New England. Features some of the most elaborate interior decoration of its era. July 28, 1983.

Architect Richardson imported the English Queen Anne style to the United States with his design for this house. It is characterized by a bold and symmetrical massing of forms. December 30, 1970.

Only Revolutionary War battle in which an all-Black unit, the 1st Rhode Island Regiment, participated. It joined Gen. John Sullivan's army in attacking the British garrison in Newport. May 30, 1974.

Aiken's Charleston and Hamburg Railroad was the first to use a steam locomotive in regular service and the first to carry mail. Brick house was used by the Southern Railway System for administrative purposes. November 4, 1963.

Marked by a distinctive style of Southern architecture, different from that of Savannah and Charleston. Houses have 2-story porticoes or verandas, and airy, open interiors. November 7, 1973.

One of the few Mills churches remaining in America. Its neo-classical temple form represents Mills' work as a maturing architect influenced by Jeffersonian classicism. February 4, 1985.

Massive three-story brick house with hipped roof, an excellent example of the Adamesque style, well-proportioned and architecturally of the highest design quality and sophistication. November 7, 1973.

A "Charleston double house," with a highly ornamented interior and exterior. Occupied by British Gen. Clinton in 1780, during the Revolutionary War. October 9, 1960.

One of the oldest surviving Charleston houses and the earliest "single house," an architectural type peculiar to this city. October 9, 1960.

Shell of what was a 2-story plantation house. Exhibits evidence of the French Huguenot influence on South Carolina's Colonial architecture. April 15, 1970.

See FORT HILL

The defeat of Gen. Horatio Gates' army at Camden climaxed a series of disasters for the Continental Army and brought Gen. Nathanael Greene to the American Southern command. January 20, 1961.

HEYWARD-WASHINGTON HOUSE 87 Church Street Charleston, Charleston County c. 1770-71 Believed to be the first fireproof building erected in the United States. Designed to house State records safely. November 7, 1973.

The South Carolina Secession Convention met here in 1860, and adopted a unanimous resolution favoring secession. November 7, 1973.

Calhoun, who is best remembered for his vigorous defense of States' Rights, penned his "South Carolina Exposition and Protest" at Fort Hill in 1828. His long political career included terms in the U.S. House (1811-17) and Senate (1832-43, 1845-50), service as Secretary of War (1817-25), and Secretary of State (1844-45), and the office of Vice President (1825-32). He occupied this house from 1825 to 1850. (Fort Hill is within the Clemson University campus.) December 19, 1960.

Late-Georgian town house redone in the Adam manner in 1794, one of the finest two-story frame late-Georgian town houses in the American colonies, and Charleston's most elegant two-story wooden "double house." April 15, 1970.

The community where William Gregg successfully introduced the textile industry to the South before the Civil War. June 2, 1978.

Built by a Huguenot settler, the building evolved from a modest frame structure into a large Georgian country house. April 15, 1970.

Occupied from 1919 to 1924 by the author of <u>Porgy</u>, the book upon which Gershwin's opera "Porgy and Bess" was based. November 11, 1971.

Fine example of a Charleston "double house," a three-story brick structure. Home of William Heyward, Jr., a signer of the Declaration of Independence, from c. 1777 to 1794. April 15, 1970.

MILLS (CLARK) STUDIO 51 Broad Street Charleston, Charleston County Early 19th century

MILLS (ROBERT) HOUSE 1616 Blanding Street Columbia, Richland County 1823, Robert Mills Built for Dr. James Verdier, discoverer of a treatment for yellow fever. House shows West Indian influence, with an arcaded cellar. November 7, 1973.

Transitional 2-story plantation house, one of the oldest frame structures in the state. Built by a French Huguenot planter. April 15, 1970.

This property's spacious grounds constitute the first landscaped gardens in America, with molded terraces descending to two butterfly shaped lakes. The original house was burned by Union troops in 1865, and only one wing, dating from 1755, survives. Middleton Place was the estate of its namesake family, prominent members of government in Colonial times, including Arthur, member of the Continental Congress (1776-78, 1781-83), where he signed the Declaration of Independence. November 11, 1971.

Monumental 2-story ante-bellum Greek Revival mansion. Outstanding interior feature is the unsupported, flying circular staircase in the central rotunda. November 7, 1973.

Oldest building in the country to be used continuously as a mental institution. One of the first mental hospitals built with public funds.

November 7, 1973.

Mills pioneered in the casting of bronze statues. He was commissioned in 1848 to do the equestrian statue of Gen. Andrew Jackson now in Lafayette Park, Washington, D.C. December 21, 1965.

Classical 2-story brick mansion, built for a wealthy merchant by Robert Mills, native South Carolinian, first Federal architect and the designer of the Washington Monument. November 7, 1973.

POMPION HILL CHAPEL 0.5 mile southwest of intersection of South Carolina 41 and 402 Huger, Berkeley County 1763-65 A plantation house which illustrates the transition from the diversity of early British Colonial architectural styles to the unified formality of the Georgian style. Constructed for a Royal Governor. October 9, 1960.

This important colonial backcountry trading village and government seat was held briefly by the British during the Revolutionary War and was the scene of Gen. Nathanael Greene's siege in 1781. The site contains remains of earthworks from 1781 fortifications, remains of two historic villages, a colonial plantation complex, and numerous prehistoric sites. November 7, 1973. (Became Ninety Six National Historic Site in 1976.)

One of several hospitals designed by Mills for indigent seamen. Gothic style, with pointed arches and windows and clustered columns. November 7, 1973.

See NINETY SIX ...

Small Greek Revival temple, with graceful twin stairways and notable wrought-iron railings. A good example of Mills' ability to design a temple-style building that is stately in spite of its small size. November 7, 1973.

Northern missionaries organized one of the first southern schools for Blacks here in 1862. Pioneered in health services and self-help programs. Oldest existing structure is the Brick Church (1855). December 2, 1974.

DE-DESIGNATED: March 5, 1986. (Originally designated June 2, 1978.)

A miniature Georgian masterpiece. A fine, virtually unaltered example of a South Carolina brick parish church. Interior woodwork and nearly all furnishings are original. April 15, 1970.

RUTLEDGE (EDWARD) HOUSE 117 Broad Street Charleston, Charleston County 1787

RUTLEDGE (JOHN) HOUSE 116 Broad Street Charleston, Charleston County 1763, 1853 (addition) Joseph H. Rainey, the first Black person to serve in the United States House of Representatives (1870-79), served longer than any of his Black contemporaries. Election of Rainey and of Hiram R. Revels, who began a term in the U.S. Senate in the same year, marked the beginning of active Black participation in the Federal legislative process. Rainey was probably born in this house in 1832 and lived here until 1846. After the Civil War, from 1866 to 1881 and again from 1886 until his death the next year, it was his principal residence. April 20, 1984.

Rhett, an eloquent speaker and owner of the <u>Charleston Mercury</u> newspaper, was an effective advocate of secession in 1860. November 7, 1973.

A brick residence of grandiose scale and monumental features; in many ways, one of the most splendid houses of its period. Its giant-order Ionic pentastyle portico is unusual among Greek Revival houses in the state. November 7, 1973.

Excellent example of the Federal style of architecture, with delicate, intricate interior detail typifying the mature American Adamesque manner. Three-story brick residence built by a wealthy South Carolina merchant. November 7, 1973.

Rutledge, a delegate to the Continental Congress (1774-77), where he signed the Declaration of Independence, and Governor of South Carolina (1798-1800), lived here from 1787 until his death in 1800. November 11, 1971.

John Rutledge, older brother of Edward, served in the Continental Congress (1774-76, 1782-83), was Governor of South Carolina (1779-82), a signer of the U.S. Constitution, and Associate Jústice of the U.S. Supreme Court (1789-91). November 7, 1973.

SIMMS (WILLIAM GILMORE) ESTATE

SMALLS (ROBERT) HOUSE 511 Prince Street Beaufort, Beaufort County 1843 One of the first true Georgian churches in the English colonies. A rectangular 1-story, stucco-on-brick structure, its elaborate interior is one of the finest of all small 18th-century country parish churches extant in the U. S. April 15, 1970.

A little-altered example of late 18th century efforts to give South Carolina's country Georgian churches a more sophisticated exterior design. St. James is 5 bays long and 3 bays wide, with a classic pedimented portico on the front facade. April 15, 1970.

An ecclesiastical architectural monument of the colonial period. Two-story Roman Doric open portico, first such portico built on a Georgian church, dominates the facade. October 9, 1960.

Stuccoed brick church, featuring an imposing tower designed in the Wren-Gibbs tradition. Three Tuscan pedimented porticos contribute to this design to make a building of the highest quality and sopistication. November 7, 1973.

Georgian-style brick church distinguished by high gambrel roof with Jacobean gables. Exterior and interior appear to be original. April 15, 1970.

One of Charleston's finest examples of a "single" house, with noteworthy outbuildings and landscaped garden. November 7, 1973.

See WOODLANDS

Smalls, a former slave who served in the State legislature and in Congress (1875-79, 1882-83, 1884-87), lived here both as slave and free man. He fought for Black rights while in office.

Excavations here show the movement of a late Woodland-Mississippian culture from the east to the Missouri Valley. July 19, 1964.

Tiny fortified village site containing five circular house rings enclosed by a ditch. It appears to represent a period of transition, when Central Plains and Middle Missouri cultural traits were combining to form the basis for Mandan, Hidatsa, and Arikara cultures as they existed at the time of the first contact with Europeans. July 19, 1964.

Site of the last significant clash between Indians and U.S. troops in North America. In a period of uneasiness, following the introduction of the Ghost Dance among the Dakota and the killing of Sitting Bull, a band led by Big Foot fled their reservation. Finally stopped by U.S. troops, they had given themselves up when shooting suddenly started. Then began a virtual massacre of Big Foot's band. (Situated on the Pine Ridge Indian Indian Reservation.) December 21, 1965.

See JUBILEE HALL

Site of a fort important in the alliance of the British and the Cherokees in the French and Indian War, an alliance that provided protection for British southern settlements during the northern campaigns. June 23, 1965.

Built by the Confederates, the fort was occupied by Union troops in June, 1862 and recaptured by Confederates in April, 1864. Heavy losses by Black soldiers in the latter battle made the fort a symbolic "Alamo" for them and they pledged themselves to "Remember Fort Pillow." May 30, 1974.

Significant milestone that marked the failure of Confederate General Hood's Tennessee campaign, when his army's repeated attacks here on Nov. 30, 1864 were repulsed by Union troops, led by General John M. Schofield. December 19, 1960.

JUBILEE HALL, FISK UNIVERSITY 17th Avenue North Nashville, Davidson County 1873-76; Stephen D. Hatch

LONG ISLAND OF THE HOLSTON South fork of Holston River Kingsport vicinity Sullivan County 1760s-1790s Between 1828 and 1836 Isaac Franklin and John Armfield created the largest slave-trading operation in the ante-bellum South. Franklin built this plantation when he decided that he would prefer the life of a planter to that of a slave trader. A 2-1/2-story red brick home, with associated outbuildings such as 4 slave houses and an overseer's house, Fairvue reflects the culture of antebellum planters in the upper South. December 22, 1977.

First college aided by the Peabody Fund, a fund established in 1867 by philanthropist George Peabody to help build the South's educational system.

December 21, 1965.

Andrew Jackson, 7th President (1829-1837), lived here for more than 40 years, before and after his Presidency. December 19, 1960.

Treaty written here in 1830 provided for the removal of Chickasaw Indians from their lands. President Jackson personally opened the meeting. November 7, 1973.

Victorian Gothic structure, the oldest building on campus. Fisk was founded by the American Missionary Association to provide a liberal arts education for Blacks after the Civil War. December 2, 1974.

Starting point of Daniel Boone's Wilderness Road through the Cumberland Gap, used by more than 200,000 settlers in 1775-1795. October 9, 1960.

Is the best preserved and most important compact, yet diverse, sample of archeological remains known in the Tennessee River Valley. Indicative of Chattanooga's pivotal status in trade, communications, economics, and political importance in the interior Southeast. Resources include evidence of occupation by Native American groups of the Archaic, Woodland, and Mississippian periods. Because of 16th-century Spanish trade and gift items found there, the site provides significant opportunities to study the early contact period in the Southeast. Also included are Civil War earthworks associated with the battle of Chattanooga. September 8, 1986.

One of the largest single-span gable-roof trainsheds in the United States, the Nashville trainshed represents the ultimate development of the first phase of trainshed construction and made a significant contribution to the evolution of modern building methods. December 8, 1976.

See GEORGE PEABODY COLLEGE FOR TEACHERS

Includes two large temple mounds, an effigy mound, and earthworks. The site was occupied during several archeological periods, beginning as early as 5000 BC. January 29, 1964.

Polk, President from 1845 to 1849, lived in this 2-story brick house, his parents' home, for several years during his youth. July 4, 1961.

Large L-shaped brick residence, built by a cousin of President Polk. Its main facade, with a 2-story Corinthian portico, gives the house distinction. November 11, 1971.

Scene of the controversial and widely publicized Scopes "Monkey" Trial (1925). The trial symbolized the clash between fundamentalist and modernist thought in science, theology, philosophy, and politics. December 8, 1976.

Site of the 1836 battle between Mexican troops and Anglo-American defenders of San Antonio, including Davy Crockett, William Travis, and Jim Bowie. The American defeat here spurred the Texas independence movement. December 19, 1960.

Represents the importance of the Johnson Space Center in the U. S. manned space-flight program. This control center was used to monitor 9 Gemini and all Apollo flights, Apollo-Soyuz, and all recent Space Shuttle flights. October 3, 1985.

See HANGAR 9 ...

See MISSION CONCEPCION

A collection of 19th-century residential structures including the ornate Bishop's Palace (1887-93) by Nicholas J. Clayton. May 11, 1976.

Once part of an irrigation system serving five area missions. Only remaining Spanish structure of its type in the United States. July 19, 1964. (Included in San Antonio Missions National Historical Park.)

One of the largest intact groupings of Exposition buildings remaining in the United States. Built for the Texas Centennial Exposition, the grounds were planned on two landscape design themes, a Beaux Arts theme involving grand plazas and vistas interspersed with major buildings, and a pastoral theme using winding paths and random building siting to create an informal atmosphere. Grounds continue to be used for the Texas State Fair and were restored for the Texas Sesquicentennial in 1986. September 24, 1986.

Key post in a chain of defenses established to protect the Texas frontier. Used during the Civil War for campaigns against Native Americans. December 19, 1960.

HANGAR 9, BROOKS AIR FORCE BASE San Antonio, Bexar County 1918 Built by Gen. Zachary Taylor's army during the Mexican War. December 19, 1960.

Established to protect the Texas frontier soldiers from the fort carried out campaigns against the Kiowas and Comanches in 1870-75. July 4, 1961.

A key post in U. S. Army fortifications in West Texas, established to guard the San Antonio-El Paso road. It rose to peak strength between 1879 and 1885. December 19, 1960. (Now within the National Park System as Fort Davis National Historic Site.)

Important military post on the southwest frontier during the Indian campaigns, particularly the Red River War of 1874. November 27, 1963.

The U.S. Army's principal supply base in the Southwest. Supplied the "Rough Riders" in 1898 and Pershing's Mexican campaign in 1916. Experiments with the Wright biplane here led to the establishment of the Signal Corps' aviation section in 1914. May 15, 1975.

Residence (1920-57) of one of the most influential U.S. Representatives. He served in the House from 1903 to 1933. As Speaker (1931-33), he led efforts to combat the Depression in cooperation with President Hoover. He lost the Democratic Presidential nomination to Franklin D. Roosevelt in 1932, and concluded his public service as Roosevelt's Vice President (1933-41). December 8, 1976.

Symmetrical Greek Revival residence, used continuously by Governors since 1856. December 2, 1974.

Only surviving hangar of the U.S. Army Signal Corps Aviation Section. Symbolizes the early Army effort to create an effective air force. December 8, 1976.

Best preserved of the Texas missions, founded by Franciscan friars. Massive church building is designed in Mexican Baroque style, with twin bell towers. April 15, 1970. (Included in San Antonio Missions National Historical Park.)

Site of first of two important Mexican-American War battles fought on American soil. Gen. Zachary Taylor's victory here made invasion of Mexico possible.

December 19, 1960. (Became Palo Alto Battlefield National Historic Site in 1978.)

Excavations at this site demonstrated the antiquity of a type of spear point commonly found throughout the Plains region. January 20, 1961.

The first cooperative farm demonstration was held here in 1903. This event contributed to the development of the Agricultural Extension Service.
July 19, 1964.

Spanish soldiers were garrisoned here to protect nearby missions. This post later played an important role in Mexican revolutionary efforts against Spain. December 24, 1967.

"Mr. Sam" served in the U.S. House of Representatives from 1913 until his death in 1961, and as Speaker (1940-47, 1949-53, 1955-61) twice as long as any other individual to hold that office. His astute political sense preserved the delicate balance between factions of the Democratic Party. May 11, 1976.

Battle involving forces of Gen. Zachary Taylor and the Mexican Army, begun at Palo Alto, continued here the next day. The defeated Mexicans retreated across the Rio Grande. December 19, 1960.

Gen. Sam Houston's forces won the decisive engagement of the Texas Revolution here. (Now San Jacinto Battleground State Park.) December 19, 1960.

Only remaining example in Texas of an aristocratic 18th-century Spanish residence. Originally intended as the residence of the commanding officer of the presidio. April 15, 1970.

See LUCAS GUSHER ...

A business district that developed from the port activities, creating a group of important 19th-century commercial structures. May 11, 1976.

Represents the highwater mark in the career of the architect, Elijah E. Myers, who is described by architectural historians as "the greatest capitol-builder of the Gilded Age." It is one of the largest capitol structures in the U.S. and reflects the popularity of t the national capitol in Washington, DC, as the prototype for state capitol buildings in the post-Civil War era. June 23, 1986.

Only extant New York class warship and only surviving battleship having reciprocating steam engines. Served in both World Wars, including the D-Day invasion of Normandy on June 6, 1944. December 8, 1976.

Sam Houston led the Texas Army to victory at San Jacinto, was President of the Republic of Texas (1836-38, 1841-44), and then represented the new State in the U.S. Senate (1846-59). His last public post was as Governor (1859-61). In the latter year, he was removed from office for refusing to support Texas' secession from the Union. Woodland, a typical Texas hill-country cottage of clapboard over logs, was his residence from 1847 to 1859. May 30, 1974.

A series of 13 habitation sites along Alkali Mesa. Excavations helped clarify the development of Anasazi Culture in the San Juan drainage, by defining the Pueblo II period (c. 900-1100). Local development from Basketmaker III (400-700) through Pueblo III (1100-1300) periods was shown to be a continuous growth influenced by neighboring peoples. July 19, 1964.

First open pit copper mine in the world, and the largest. Continues to yield a high percentage of all American copper. November 13, 1966.

Excellent examples of the type of architecture encouraged by the National Park Service and built by the railroads. These are the best of what remains of the entire Bryce Lodge Complex. They were a part of the Union Pacific/Utah Parks System that included concession developments at other National Parks. May 28, 1987.

See OLD CITY HALL

Results of excavations at this site formed the basis for definition of a long-lived "Desert Culture" which existed in the Great Basin area. Earliest cave stratum (c. 9500-9000 BC) is characterized by crude chipped stone artifacts; Zone II (c. 8000-7000 BC) by milling stones, basketry, and notched projectile points characteristic of the Desert Culture; and Zones III, IV, and V (c. 7000 BC-500 AD) by materials showing an elaboration of the same culture. January 20, 1961.

John Wesley Powell, naturalist and explorer, led a Smithsonian expedition down the Colorado River to the previously unexplored canyon, giving names to the natural features along the way. November 24, 1968.

BRUTON PARISH CHURCH Duke of Gloucester Street Williamsburg city 1712-15; Alexander Spotswood This rectangular 2-1/2-story Georgian house was the birthplace and lifelong home of Benjamin Harrison V, a member of the Continental Congress (1774-78), a signer of the Declaration of Independence, and Governor of Virginia (1782-84). It was also the birthplace and boyhood home of his son, President William Henry Harrison. November 11, 1971.

Two-story, stuccoed, Greek Revival mansion, with an impressive Greek Doric octastyle portico across the front, and two service pavilions with porticoes echoing that of the main house. Regarded as an excellent representation of domestic Greek Revival architecture in the U.S. November 11, 1971.

See BANNEKER SW-9 INTERMEDIATE BOUNDARY STONE

A plantation with many acres of farmland, woodland, and gardens. The main house is an excellent example of a brick plantation house in a variant of the English Palladian style, differing from early and middle-Georgian houses in its extended, multiple part composition. April 15, 1970.

A group of 19th-century houses and farm buildings, significant as an architectural and social document. The main brick residence has Palladian architectural features popularized by Jefferson, whose advice was sought on the building plans. Two other main 19th-century buildings in the district are rare examples of Jacobean Revival style. November 11, 1971.

The earliest church in the British American colonies to reflect the infusion of English Renaissance style. Cruciform in style, with a steep gable roof and circular windows in the end walls. April 15, 1970.

Capitol Square, Richmond city
1785-92; Thomas Jefferson and
Louis Clerisseau

A 2-story Italian villa featuring such 19th-century innovations as a central heating system, gas lights, inside toilets, and shower baths. The upper story of Camden's tower was destroyed by a Union gunboat in 1863.

November 11, 1971.

First lighthouse to be erected by the Federal Government. The 90-foot-high stone tower was in constant use until 1881. January 29, 1964. (Administered as part of Colonial National Historical Park.)

An excellent 5-part Georgian country house with a massive, 2-1/2-story rectangular main block, crowned by a hip roof. The interior woodwork is a fine example of work of the period. April 15, 1970.

Gen. Philip Sheridan defeated Confederate General Jubal Early here, climaxing the struggle for the Shenandoah Valley. Belle Grove, a 1-1/2-story stone house built by James Madison's brother-in-law in 1790, served as Sheridan's headquarters. August 11, 1969.

A significant example of British Colonial ecclesiastical architecture, well-preserved in plan, exterior design, and furnishings. May 30, 1961.

A little-altered, continuously used late Georgian brick church. The east wall is highlighted by a 2-tier Palladian window. The interior wooden galleries were added about 1785. April 15, 1970.

HENRY (PATRICK) HOUSE

HOLLY KNOLL

The residence (1907-23) of one of the most influential shapers of U.S. financial policy in the first half of the 20th century. Glass served in the U.S. House of Representatives (1902-18), as Secretary of the Treasury (1918-20), and as U.S. Senator (1920-46). He authored the Glass-Owen Act (1913), which established the Federal Reserve System. December 8, 1976.

Settled in the 1720s, the district's farms were a major source of wheat in the mid-1800s. Flourishing historic estates represent phases of Virginia architecture from British Colonial times to the 1860s. May 30, 1974.

Estate of Lord Fairfax from 1751 to 1781. proprietor of a vast tract of land in Virginia, Fairfax employed George Washington as a surveyor. October 9, 1960.

Notable for its interior carved details and formal gardens, Gunston Hall was built for George Mason. Mason was a leading Revolutionary figure, author of the Virginia Declaration of Rights (1776), and member of the Constitutional Convention, whose refusal to sign the document without a Bill of Rights was vindicated by events. December 19, 1960.

Now a liberal arts college, the Institute was founded by the American Missionary Society in 1868 to offer vocational education to former slaves. Booker T. Washington, founder of Tuskegee Institute, was a graduate. May 30, 1974.

This Georgian courthouse has been used continuously since its erection. In 1763, Patrick Henry argued and won a case here, The Parson's Cause, involving religious liberty in the Colony. November 7, 1973.

Mount Vernon is a 2-1/2-story frame Georgian house facing the Potomac River. Washington returned to Mount Vernon after his term as President, and lived here in retirement until his death in 1799. December 19, 1960.

President of the U.S. (1817-25), Monroe owned Oak Hill until 1830, the year before his death. He first outlined the Monroe Doctrine in a letter written here. Oak Hill is a 2-story gable-roofed brick house with a striking south portico. December 19, 1960.

Notable Federal-style mansion, designed by its builder-owner. Of brick, covered with stucco, and laid out in a 5-part plan. The extensive formal gardens were added after 1803. November 11, 1971.

A prime example of the High Victorian Gothic style for the solidity and roughhewn quality and the variety of ornamental gables, dormers, and finials of its facade. Richmond's first major post-Civil War structure. November 11, 1971.

See POTOMAC CANAL

Associated with the case of Ex parte Virginia (1878), which concerned the denial to Black Americans of participation on juries. It involved a clear attempt by a state official to deny citizens within his jurisdiction the equal protection of the laws guaranteed by the 14th Amendment to the Constitution. This case showed that the Federal government now had a qualified, but potentially effective, power to protect the rights of minority groups. May 4, 1987.

Built by Jefferson as a country retreat. A brick 1-story building, octagonal in shape. November 11, 1971.

UNIVERSITY OF VIRGINIA ROTUNDA

One of the oldest houses in the British Colonies, built by a member of the Virginia House of Burgesses who arrived in the Colony as an indentured servant. October 9, 1960.

The district consists of three sites (Thunderbird Site, Fifty Site, and Fifty Bog) which show a stratified cultural sequence spanning Paleo-Indian cultures through the end of Early Archaic times. May 5, 1977.

The Tredegar Iron Works was one of the largest iron works in the United States from 1841 to 1865. During the Civil War the works supplied the South with a major share of the iron products that helped the Confederacy sustain 4 years of war. December 22, 1977.

As a boy, Thomas Jefferson spent the years 1745 to 1752 at this plantation, where his father was acting as guardian for a relative. This 2-story early—Georgian frame house is an outstanding example of an Hshaped structure in the British Colonies. Has remarkably unaltered interior decoration and trim, and a well-preserved complex of 8 outbuildings nearby. August 11, 1969.

Tyler, who became President upon the death of William Henry Harrison in 1841, lived here for the last 17 years of his life. (1845-62). July 4, 1961.

The district includes Jefferson's original "academical village" with its classrooms and quarters, as well as the Rotunda (the focal point of Jefferson's design) and several buildings added by White. Jefferson's brilliant arrangement of the University buildings was in the European neo-classical tradition of the period. This is among the most beautiful collegiate complexes in the world. November 11, 1971.

WREN BUILDING, COLLEGE OF WILLIAM AND MARY Williamsburg city 1702 Ancestral seat of the Byrd family in Virginia. The present stately 2-1/2-story brick mansion of early Georgian style notable for the quality of its construction and for its completeness of design. It was built by William Byrd II (1674-1744) a planter, public official, and author especially noted for his post-humously published letters and diaries. October 9, 1960.

During the 4-year period of Confederate President Jefferson Davis' residence here, in the Confederate capital, this house served as the South's Executive Mansion. December 19, 1960.

Built for noted constitutional lawyer John Wickham, who served as defense counsel in Aaron Burr's celebrated trial for treason (1807). Used early in the 20th century by sculptor Edward V. Valentine, who executed the figure of Robert E. Lee for the latter's mausoleum at Washington and Lee University. The house is one of Richmond's finest Federal residences, with a free-standing spiral staircase in the hall. November 11, 1971.

Capital of Virginia (1699-1779) and the home of the College of William and Mary, chartered in 1693. Restoration of the district, begun in 1927, has recreated the atmosphere of 18th-century Williamsburg. October 9, 1960.

Wilson, the 28th President, was born in this 2-story Greek Revival brick house late in 1856. The structure was then the parsonage of Staunton's First Presbyterian Church, where Wilson's father was serving as pastor. The next year, the family left for Augusta, Ga., where the Reverend Wilson had accepted a new pulpit. July 19, 1964.

The cornerstone for the Wren Building, the first building of the second-oldest institution of higher learning in the U.S., was laid in 1695, 2 years after the college was chartered. Four stories in height, it was one of the largest buildings erected in the Colonies up to that time. October 9, 1960.

Virginia

WYTHE HOUSE West side of the Palace Green Williamsburg city c. 1755; Richard Taliaferro

YEOCOMICO CHURCH 1/2 mile southwest of Tucker Hill on Virginia 606 Westmoreland County Early 18th century One of Virginia's finest Georgian brick townhouses, with simple lines and excellent brickwork. From 1755 to 1791, it was the home of George Wythe, signer of the Declaration of Independence, mayor of Williamsburg, and first professor of law in an American college (William and Mary.) April 15, 1970.

Laid out in an irregular T shape, this brick church's blend of medieval and classical features makes it a significant example of transitional Colonial architecture. April 15, 1970.

Sites associated with the conflict about the water boundary between Vancouver Island B. C., and the U. S. Oregon Territory including the "Pig War of 1859," when hostilities almost began between Americans and the British. The 1871 Treaty of Washington provided for a peaceful settlement of this dispute. November 5, 1961. (Now within San Juan Island National Historical Park.)

See entry under Oregon listings.

Capt. Robert Grey's discovery of the Columbia River at Chinook Point gave the United States a strong claim to the Pacific Northwest; this claim was long disputed with Great Britain. July 4, 1961.

See LONGMIRE BUILDINGS

The fort was the first permanent Anglo-American settlement on Puget Sound, serving as a communications and supply center for trading posts. The fort's one story granary, of log construction, is the oldest frame structure in the State. April 15, 1970.

Fortifications which well illustrate the Endicott system of coastal defenses; an unaltered Endicott installation built on previously unfortified ground, making no concessions to older works. December 8, 1976.

Contributed substantially to the development of rustic architecture. The buildings were tied in with their awesome surroundings because the rounded glacial boulders and logs used in the construction were in proportion with the materials in the surrounding landscape, but were overscaled and larger than those used in construction. May 28, 1987.

The most outstanding archeological site yet discovered in the Northwest. Excavations at the site, on the west side of the Palouse River, have revealed the earliest burials in the Pacific Northwest (c. 5500-4500 BC) and possibly the oldest human remains yet encountered in the Western Hemisphere (c. 11,000-9,000 BC). The 8 strata at the site all contain cultural materials. July 19, 1964.

A rustic hotel with furnishings in the lobby that have a hand-crafted artistry and Gothic feeling reminiscent of northern European woodwork. Built on a smaller scale than the Old Faithful Inn in Yellowstone National Park, it was part of one of the earliest ski resorts in the United States. May 28, 1987.

This complex is at the heart of the commercial district in old Seattle. The Pioneer Building is Richardsonian Romanesque in style. The Pergola is constructed of cast iron. May 5, 1977.

One of the earliest and most important lumber-producing centers on the Pacific Coast. Still active, with a variety of architectural styles, Port Gamble exemplifies the mid-19th century companyowned town. November 13, 1966.

Once a customs station on Puget Sound, the town flourished in the 1880s, but collapsed in an 1889 land speculation debacle. The district contains many fine late 19th-century commercial and residential structures. May 5, 1977.

See AMERICAN AND ENGLISH CAMPS ...

Reinforced concrete building houses the last operational examples of the Curtis vertical steam turbogenerator, the first type of large-scale steam turbine developed. This new technology established General Electric as a leader in the manufacture of steam turbines. The plant also exemplifies facets of the history of urban power use and development. July 5, 1984.

One of the largest and oldest mounds in the United States representative of the burial mound tradition of the Adena Culture which preceded the Hopewell Culture. July 19, 1964.

A limestone house built by Continental Army General Horatio Gates, whose permanent residence it was until 1790. Patriot forces led by Gen. Gates compelled the surrender of Gen. Burgoyne's army at Saratoga in October 1777. American troops under Gates were, in turn, defeated by Cornwallis at the Battle of Camden, South Carolina (August 16, 1780). November 28, 1972.

Wade, a teacher and superintendent in the West Virginia school system, lived here from 1872 to 1904. He devised important innovations in grading, promotion, and graduation procedures. December 21, 1965.

Oldest major long-span suspension bridge in the world, with a span of more than 1,000 feet. The Wheeling Suspension Bridge is possibly the Nation's most significant extant ante-bellum engineering structure. Its construction established American leadership in the building of suspension bridges. May 15, 1975.

Wright's imaginative approach to structure is seen in his use of rounded "organic" forms, and in the T-shaped columns and "tree-like" tower. January 7, 1976.

One of the American Fur Company's principal establishments, this stone building recalls the Astor empire and Prairie du Chien's prominence as a fur trading center. October 9, 1960.

Large stockaded temple mound site, the northernmost of the major Mississippian culture archeological sites. Now forms Aztalan State Park. July 19, 1964.

See LITTLE WHITE SCHOOLHOUSE

One of two residences to which Sullivan contributed (the other being the Babson House in Riverside, Illinois) just after his peak as a skyscraper architect. An excellent example of Prairie School design. January 7, 1976.

Built by a French-Canadian, who had been one of the town's first permanent settlers in 1781. This 2-1/2-story house shows the prosperity brought by the fur trading industry. October 9, 1960.

Served travelers when Prairie du Chien was a railroad center. Used as a stopping point by thousands of emigrants to the West after the Civil War. October 9, 1960.

Sullivan designed and also supervised construction of this small bank, one of the modest commissions that were all he could obtain in his later years. This tapestry brick building is an excellent example of his masterful ornamentation. January 7, 1976.

The post hospital, the only remaining building, was the scene of important medical experiments in 1829-33. October 9, 1960.

A superb example of Wright's organic architecture, growing out of his Prairie Style work. Taliesin was the second great center of his activity (after Oak Park, Illinois.) The principal surviving complexes are Taliesin III (1925), Hillside Home School (1902, 1933), and Midway Farm (1938). Additions include those done by the students who studied under Wright after the funding of the Taliesin Fellowship in 1932. Wright lived here each summer until his death in 1959. It continues to be the summer headquarters of the Taliesin Fellowship. January 7, 1976.

Representative of the <u>Gato</u> class of submarines. Although not built by the Manitowoc Shipyards, she is symbolic of the great industrial achievement and effort of the people of Wisconsin toward the winning of World War II. She sank 13 Japanese ships, and earned 4 battle stars for her service. In 1970, the people of Wisconsin dedicated her as an International Memorial to submariners throughout the world. January 14, 1986.

See NORTH HALL ...

Hercules Louis Dousman was a major figure in the fur trade and transportation enterprises in the northwest territory. In 1843, he built a house on this site, which was replaced by his son in 1870. The villa complex with outbuildings stands on a mound believed to be a Hopewell site which was also the site of two early forts. October 9, 1960.

SOUTH PASS 10 miles southwest of South Pass City on Wyoming 28 Fremont County 1824 Classic rustic buildings designed for the Laura Spelman Rockefeller Foundation. The architect tried to make his designs harmonize with their surrounding landscapes. They served as the models for hundereds of state and county park structures built during the work-relief programs of the 1930s in the West and Midwest. May 28, 1987.

The first building in a National Park constructed in an architectural style harmonious with the grandeur of the surrounding landscape. Reflects Adirondack rustic architectural idiom, but blown up to enormous proportions. Its sevenstory high log lobby is unique in American architecture. Created with gnarled logs and rough sawn wood for the Northern Pacific Railroad, it has a sense of place as identifiable as the Park itself. May 28, 1987.

Worn from 2 to 6 feet into an eroded sandstone ridge on the south side of the North Platte River, this roadbed gives clear physical evidence of the route followed by those who migrated westward across the Plains.

May 23, 1966.

This district includes the Golden Rule Store, and the home of James Cash Penney, who here began, in 1902, the retail chain that still bears his name. June 2, 1978.

William F. ("Buffalo Bill") Cody operated this hotel in 1894-1896, catering principally to sportsmen. The frame building has a piazza on two sides. January 29, 1964.

Easiest passage through the Rocky Mountains, heavily used by westbound settlers, fur traders, and miners. The traffic through the Pass helped establish an effective U.S. claim to the Pacific Northwest.

January 20, 1961.

WYOMING STATE CAPITOL 24th Street and Capitol Avenue Cheyenne, Laramie County 1886-present; David W. Gibbs & William Dubois Typifies the medium-sized ranching operations of the open range period. Sun was a French-Canadian frontiersman who became a pioneer cattleman. December 19, 1960.

Organized in Scotland, this company was one of the foreign concerns that flour-ished in the West when the range cattle industry was profitable. Surviving buildings include the ranchhouse, barn, and commissary. July 19, 1964.

See SUN RANCH

Most popular rendezvous site connected with the Rocky Mountain fur trade. The annual spring trading fair held here attracted Anglo-American traders and trappers, including Kit Carson and Jim Bridger, and Native Americans. November 5, 1961.

First forest ranger station erected at Federal expense. Situated within the first national forest reserve (Shoshone National Forest), which was established by President Benjamin Harrison in 1891. May 23. 1963.

Wyoming was admitted to the Union as the first state to enfranchise Women. As a territory, Wyoming had been the first major jurisdiction in the United States where women had full suffrage, and in 1889, an all-male group drafted a State constitution that included women's suffrage. There were heated arguments in Congress about this provision when Wyoming Territory applied for statehood, but in 1890, after a close vote, Congress passed the Wyoming Statehood bill. It was a symbolic victory for the women's suffrage movement, and commanded national attention. May 4, 1987.
